

THE ADVERTISER

Largest Bona-fide Town and County Circulation of any paper published in the County.

J. B. THOMAS, Editor & Proprietor.
W. B. TOWNSEND, Editors & Proprietors.

DALLAS, GA., SATURDAY, NOV. 3, 1876.

We hear it mooted that the Radicals do not intend distributing tickets in this State for the Presidential election.

The Springfield Republic thinks no matter who shall be elected, that this is the last Presidential election to be fought by regularly organized Republican or Democratic parties.

Col. A. P. Butler, Messrs. Frank Dunbar, Harrison Butler, John Reese and Thomas Butler, arrested on the charge of murder, in Aiken, S. C., have been released on a bail of \$5,000.

It is with feelings of unspeakable pleasure that we chronicle the abatement of the yellow fever in Savannah. We are also glad to learn that this dreadful disease has entirely disappeared from the city of Brunswick.

Col. E. Y. Clarke doffs his hat in retirement from the editorial staff of the Atlanta Constitution. He is an old and honored veteran in the newspaper business, and the "drivers of the quill" will miss his facile pen.

Galaxy Head on the coast of Cork, will soon have erected the largest lantern ever made. It will consume 1,300 feet of gas per hour and will be visible during foggy weather. Its light will equal that of 2,000,000 candles.

A special to the Globe-Democrat, from Little Rock, says three Methodist ministers, riding a circuit in Pope county, were shot by Hughes and Hale from the brush. They are ill-dressed, and supposed the preachers were revenue officers coming to arrest them. One died in two hours. The others are dangerously, if not fatally wounded.

A dispatch from Panama says a cyclone passed over Central America on the 3d and 4th. Four hundred houses were blown down and many persons drowned. The damage is estimated at \$2,000,000. The town of Bluefield on Mosquito coast lost 30 houses. Lake steamer Commodore Adams was destroyed at Grand wharf. The loss on the coffee crop is estimated at \$3,000,000, and about twenty lives were lost. The whole district is inundated.

It seems from the following, taken from the Savannah News, of late date, that this State is not large enough to hold its own. It says: "A sensation has been created in Jersey City by the discovery of a gold mine while sinking a well. The workmen, after passing through a vein of iron ore, struck a quartz vein containing gold at a depth of 600 feet. Geologists suppose that this quartz belongs to the Appalachian range, running from Nova Scotia to the Gulf, and having outcroppings in Virginia, North Carolina and Georgia."

Read what that outspoken and fearless evening sheet, the Commonwealth, says. It explains itself. "Load up boys, Ma! Fifty Remington pistols reached him yesterday, for his deputies on the day of the election. Every democrat should meet this formidable threat and resist the tide of battle."

What a shameful spectacle! "The best government the world ever saw" arming partisans and bidders to intimidate honest voters and force elections against the people's will. It is not and cannot come to good. There is but one step, and a short one, from this to military despotism. If not rebuked by a decisive majority on the 7th of November, by the liberty-loving freemen of America, it will be an easy matter on the 4th of March for Grant to play the Cromwell and disperse the Congress. "Fifty Remington pistols!" Let us meet them in Georgia with fifty thousand majority."

BLEEDING CAROLINA

The Bishops, bankers and lawyers of South Carolina have united in sending out an address to the people of the United States on the condition of that State. We regret being unable to present it in full through our columns, but suffice it to say, that it is an emphatic denial of the base misrepresentations of Gov. Chamberlain. They not only brand them as wilful lies, but further say that they were made with a view to carry the approaching election in that State by fraud and the bayonet.

SOUTH CAROLINA AGAIN.

The following Associated Press dispatch bears date Charleston October 27th.

"News has just been received here of the murder of two aged sisters, both widows, named Braddock and Stoddard, residing alone in Laurens county. An axe was the instrument used. From old Laurens of yesterday."

Sixty Northern merchants, resident and doing business here, held a meeting to night and adopted an address to the people of the United States, declaring Governor Chamberlain's proclamation unwarranted by the real condition of the State, and fully endorsing the recent statement issued by the clergy and bankers of Charleston."

TO THE PEOPLE.

Let every citizen be wide awake, up and doing, as the election approaches. The poor man can now rejoice, as one more opportunity is about to be presented by which we can relieve ourselves of the present burden, by supporting Samuel J. Tilden, the great reformer. Then rally to the polls, lay aside all business on that day, and go vote for this man. Have we not suffered long enough? Are we not convinced by experience that we are sapped and robbed daily by thieves whose only object is plunder? Are we not deprived of our liberty, of our rights and numerous privileges we would have access to, had we only a good government? Then listen not to the vain allurements of these black-hearted scoundrels, who are to-day arrayed in splendor, canvassing our country, trying to deceive our people, paying their way with the very money that we are robbed of. Time is precious, man's days are but few, then let us rally on that day in one grand mass as a solid people, and open wide the gates of justice and liberty, by casting our votes for reform. This will plunge like a glittering dagger in the very bosoms of these Radical devils, causing the last drop of blood to ooze from their throating veins, and will place honest men in power.

COUNTING THE ELECTORAL VOTES.

The New York Express says: "Everybody knows that the electoral votes are to be counted in the presence of both Houses of Congress in February, and that those candidates having the largest number of electoral votes are to be declared President and Vice-President, but the question is, if the eight votes of Louisiana or Mississippi, or the seven votes of South Carolina, should turn the scale in favor of Mr. Tilden and the Senate should refuse, on any pretext to count those votes, would not the will of the people be defeated and Hayes be President? Recollect, the refusal to consent on the part of the Senate no matter what the House may say or do, is sufficient to defeat the will of the people. But the federal says we do not live in Mexico. No, but some of the leading Republicans are not a whit better, or more to be trusted than the revolutionary chiefs of the neighboring Republic. It is not the way to avert possible danger by ignoring it. The Constitutionalist adds: In case the Republican Senate should defeat Tilden by throwing out votes sufficient for that purpose, what then? Is such a proceeding to be tamely endured? We trust there will be no trouble, and that the vote for Tilden will be such an expression of the popular will as to defeat any such purpose of the Radical-Republican Senators. But the danger exists, and may as well be squarely faced, as we hope it will be squarely met if the emergency demand it."

WUDDWA O'S TANNERY.

A BIG BONANZA.

A Healthy Off-spring of Dahloneg's Enterprise and Industry.

After ransacking every hole and corner in our quiet but enterprising little village, where there was any likelihood of securing up anything of local interest, we were on the ragged edge of desperation, and anxiously sighing for we hardly knew what. We finally came to the conclusion that we would drop in and take a peep at Capt. Woodward's Tannery.

DAHLONEGA'S BIG BONANZA.

Arriving at our destination, we were met at the threshold of the currying department by Mr. Bowline, the very efficient workman who has charge of that branch of the business. After carefully examining a large lot of as fine leather as we ever saw, just finished up by this gentleman, we made our way up into the second story, where we had the pleasure of admiring several, splendid pieces of workmanship, in the way of

ELEGANTLY FINISHED BOOTS AND SHOES, which will compare favorably with anything in this line manufactured at the North, both in elegance, neatness and durability. This important branch is presided over by those two princes of workman, Mr. Rice and Mr. Calvin Jenkins, both of whom are experienced workmen. Mr. Jenkins is noted for the good and substantial manner in which he puts up his work, while Mr. Rice is none the less noted for the durability of his work, than for the neat and artistic finish which so characterizes it, as the heavy sales at Capt. Woodward's store attest.

After examining several fine jobs finished up for the trade, we began a general rummage and inspection of machinery, vat yard and outbuildings, all of which bore signs of industry and skill. When we had finished our detour and brought up at the front entrance, we paused to take a general observation, and at once the fruits of Capt. Woodward's perseverance and industry, began to assume the business like proportions of an

"ATLANTA COTTON FACTORY, JR."

Capt. Woodward's success in introducing and manufacturing leather for booting, is an item in this industry that is proving to be a great benefit to cotton factories and mill machinery of every description where belts are used. This lace leather is said to be as good for strength and durability as is made in the United States, and we are informed by the proprietor of this establishment, that he is constantly receiving orders from a distance, and wherever this leather is once used, proves to be so applicable to its use, that the mill man says they would not be without it.

They manufacture sole, common upper calf, kip skins and lace leather, of the finest grade. Harness, bridles, lame strings, whip lashes and boots and shoes. When at last we had satisfied our curiosity and began retracing our steps, then it was that way for the first time, began to realize the fact that the advantages and resources of this section are unknown almost to outsiders, and to a great extent by its own citizens. And then the question very naturally suggested itself to our minds, why can't we have more such home industries? We have every facility necessary for the successful working of machinery, then why not utilize them; curtail our general expenses and live off of our own resources—instead of depending on the goods and Yankee ingenuity. As we said before, the facilities afforded us by its valuable water powers for manufacturing purposes will, when known and appreciated by outside capital, make it one of the best and most fertile sections in the State. The attention of the outside world has already been directed to this particular section, by the wonderful richness of the numerous gold mines, which are being so successfully operated right in our midst.

And now in conclusion, we would say a word to the property-holders of this favored section, and we are done. Let this knowledge stimulate your drooping public spirits, arouse yourselves to a proper appreciation of the wonderful facilities afforded us by nature, almost at our own doors, and the advantages of having mills, factories and foundries at points remote from the dense population of cities.

A FULL-TEXT OF GOV. TILDEN'S LETTER EXPLAINING HIS VIEWS ON THE ISSUES OF THE WAR.

For some time, we have known that the "Small fry," of the Radical "blow hards," have been grinding this melancholy tune to unsophisticated audiences in-out-of-the-way places, and in the issue of the 14th ult., treated it as it deserved, with ridicule, at the same time apologizing for the simplicity of any who might be weak enough to credit anything so preposterous.

Yet, as dimly as it is, fire-entirely-bloody-shirt blame, and the rest of his drowsing crew are trying to keep their radical proboscis above water by clutching at this ghost of a straw, *Amplified by a T. T. T.* Mr. Tilden's answer is to the point, and every democrat should arm himself with a copy of this letter for use on the day of election. *Amplified by a T. T. T.* Washington, Oct. 25.—The following is the text of the first part of Gov. Tilden's letter: Hon. Abram S. Hewitt, Sir—I have received your letter informing me that the republicans high in authority are publicly representing that the south is not without hope to obtain payment for loans by the late war, and to have a provision made for the rebel debt and for the loss of slaves. As the payment of such losses and claims must not be important enough to deserve the motion of either convention at the time it was held, you also ask me to state my views in regard to their recognition by the government.

Though disposed myself to abide by the issue as made up already, I have no hesitation to comply with your request. The fourteenth amendment of the constitution especially provides as follows:

The validity of the public debt of the United States, authorized by law including debts incurred for the payment of pensions and bounties for services suppressing insurrection or rebellion shall not be questioned; but neither the United States nor any other State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for loss of emancipation of slaves, but all such debts, obligation and claims shall be held illegal and void.

This amendment has been repeatedly approved and agreed to by the democratic state conventions of the south. It was unanimously adopted as a part of the platform of the democratic national convention at St. Louis on the 28th of June, and was declared by that platform to be universally accepted as a final settlement of the controversies that engendered civil war.

My own position on this subject had been previously declared in many occasions, and particularly in my first annual message, January 6, 1875. In that document I stated that the southern people were bound by the 13th, 14th and 15th constitutional amendments, that they had joined at national conventions in the nomination of candidates; and in the declaration of preambles and purposes, which form an authentic acceptance of the results of the war, embodied in the last three amendments, to the organic law of the federal union, and that they had by the suffrages of all their voters at the last fall election, completed the proof that now they only seek to share with us and maintain the common rights of America's local self government in a fraternal union under the old flag, with one constitution and one destiny. I declared at the same time the questions settled by the war are never to be reopened. The adoption of the 13th amendments to the federal constitution, closed one era in our politics. It marked the end forever of the system of human slavery, and of the struggles that grew out of that system. These amendments have been conclusively adopted, and have been accepted in good faith by all political organizations and the people of all sections. They close the chapter; they are and must be final. All parties hereafter must accept and stand upon them, and henceforth our politics are to turn upon questions of the present and the future, and not upon those of the settled and final past.

GOV. SMITH'S SPEECH.

Gov. Smith, in his recent speech at Augusta, said: "When Ballou fled in 1871 and the government of the state passed into the hands of the democratic party or rather of her own people, what was her condition? When I attempted in the first year to borrow \$200,000 to meet the expenses of the fiscal year 1872, I could find no one who was willing to credit had fallen so low even with her own people. The public credit was actually nothing. In that difficulty I made an appeal to that grand old man who has never yet uttered one word against his state. He at once promised his assistance. He conferred with that other grand old man, Charles J. Jenkins. They, with John P. King, of Augusta, and Ferdinand Phinizy of Athens, came forward and gave their own notes and pledged their individual stocks and bonds to procure money for the necessities of the state. Our character and our credit had been destroyed during Ballou's administration. How is her credit now? Her eight percent bonds are worth 100 cents in the market; her seven percent bonds are worth 107. All her seven percent bonds are above par. He had no difficulty in securing a loan when he needed it temporarily this year. He could have had ten times as much on the easiest terms. What has produced the change? (Voices 'democracy Smith.') No, I don't claim this credit. It is because her people have control of Georgia."

OBITUARY.

Sister Martha London was born February 19, 1835, and died in Lumpkin county, Ga., October 2, 1876. She joined the M. E. Church South, when she was only 16 years old, and embraced religion soon afterwards at the Antioch camp meeting in Hall county.

She was a faithful, christian lady, always adorning the profession she had made by an upright walk and godly conversation. She was the mother of ten children, five of whom have preceded her to the glorious world. May the Lord bless her bereaved husband and five motherless children, one of whom has embraced religion and joined the church since her death.

C. L. PATTELO.

Corner Broad and Alabama Streets, Atlanta, Ga.
A Standard Institution. Established 1863.

THE BEST PRACTICAL BUSINESS SCHOOL IN THE SOUTH.
Supplied with the latest and most complete system of bookkeeping, and every other branch of the business of the day. The course of instruction is thorough and practical, and the students are prepared to enter the service of any business house at once.

Briefs.

There are proposals to extend the Centennial exhibition to the 16th of November.

Hayes is to resign the Governorship of Ohio in order to improve his Presidential chances.

Sixty thousand additional salmon eggs have arrived at New York city from California for the New York aquarium.

The Fall Mall Gazette contends that Russia is at present actually at war with Turkey and that any further efforts at diplomacy are useless.

Fourteen hundred school children shook hands with President Grant at his reception in Ithaca, N. Y., the other day.

The graves of General Lee and Miss Agnes Lee, in Memorial chapel, Lexington, Va., are ornamented with fresh flowers every morning, winter and summer.

Speaking of the many recent fortunes made in petroleum, the Oil City Derrick says the oil region, taken as a whole, is worth \$25,000,000 more than it was three months ago.

During the recent campaign on one occasion when General Terry called to see General Crook, the latter was up to his knees in the Yellowstone, washing his only suit of underclothes.

The plague broke out in the Serbian army at Ogandorants a few days ago, and 318 men fell victims, but after burning their clothes and bedding and plunging up the ground the disease disappeared.

The Turkish battle hymn, of which the following is a portion, furnished an excellent text for the horrible brutalities perpetrated by Turks in moments of victory: "Allah calls! Allah invites! Allah! Up to the seventh heaven rise the vile order and the insolence of the infidels. Allah calls! Allah invites! The bloody combat opens. To the conquerors, the prophet will open the gates of Paradise. Allah is great! The corpse of our brethren will remain upon the field of carnage, that they may breathe pestilence, desolation and death into a camp of our enemies. Weep not for them! The avenging sword of the sons of the prophet will slay by the side of each a hundred as a compensation for their death. Dead or alive, may their corpses or their weapons sow destruction and mourning in the infidel ranks! Weep not for them! Allah is great! The Christians crushed, our dead will inherit all the joys promised by the combat! To carnage! Allah calls! Allah invites!"

The Humboldt, Cal., Times: A member of the Humboldt county pioneers has a beard five feet in length. It has been growing ten years, and had it not been for spells of sickness of the possessor it would have been several inches longer. Already it is almost to the ground, and as the owner walked the streets of Crescent city a crowd surrounded him at every turn, and bored him with the usual interrogatives incident to such a strange sight. The pioneer who boasts this beard signifies his intention of not exposing it to the public gaze only upon each anniversary of the society of which he is a respected member.

Last week a musty, discolored and worn-out leather pocket-book was sent to the treasury with the following affidavit from Arkansas: "While plowing my field I lost my pocket-book, which contained a one-hundred-dollar note, a fifty and a twenty. Next year when plowing the same field I unearthed it. I send it and its contents for identification." The pocket-book was given to a lady who is a great expert. She carefully removed the mould and debris, but alas the legal tenders had not been proof against frost and rain and earthy mold. There were only a few black crumbs in place of the crisp, fresh notes. The lady took tissue paper the size of a greenback. She carefully separated the black particles, and, as if by magic she recognized a letter here and there. These she stuck on the tissue paper with mucilage, until she found a clew by which she could identify each note. She proved that they were notes of the national bank of Baltimore, Maryland, and by her knowledge and patience she caused the notes to be redeemed by new ones, and the farmer has not lost a cent by planting bank notes, though his crop has not increased.

GEO. J. HOWARD,

WHOLESALE AND RETAIL

DRUGGIST,

AND DEALER IN

PAINTS, OILS,

WINDOW GLASS,

FINE WINES AND LI-

QUORS, FOR MEDICAL USE, &c.

Also Proprietors of the following popular remedies:

PONCE DE LEON BITTERS.

A pleasant remedy for Indigestion and other diseases arising from a disordered condition of the stomach, and of decided advantage to persons recovering from any debilitating sickness.

ESSENCE OF JAMAICA GINGER.

A pure and concentrated essence of Jamaica Ginger, and for sick headache, cold, nervous debility, cholera morbus, &c., is an invaluable remedy.

EUREKA NERVE AND BONE LINIMENT.

A sovereign remedy for bruises, sprains, cramps, stings of insect, stiffness of the joints, neuralgia, etc. While I do not claim that it will cure all chronic cases of rheumatism, I do say that it will give decided relief, and I have information of perfect cures, having been made by the use of it.

HOWARD'S WORM CONFECTIONS.

A pleasant, safe and effectual remedy for worms—the confections not having any unpleasant taste. Children are fond of them.

HOWARD'S IMPROVED CONDITION POWDERS.

For horses, cattle and hogs. Horses low in flesh, hind bones, and all bad health generally, will be largely benefited by the use of these powders. Given to hogs occasionally they will keep in good health and not be liable to cholera.

HOWARD'S CHICKEN POWDERS.

A certain prevention (and cure if used in time) of gapes, cholera and other diseases of chickens, turkeys, &c.

The above remedies for sale by country merchants generally.

G. J. Howard,

WHOLESALE AND RETAIL DRUGGIST,

Fall and Winter GOODS.

H. D. GURLEY & BRO.

RETURN Thanks for past patronage, and most respectfully call the attention of their friends, and the public generally, to their splendidly assorted stock. We have on hand, and are receiving constantly

STAPLE & FANCY DRY GOODS.

CLOTHING, FURNISHING GOODS, HATS, BOOTS, SHOES

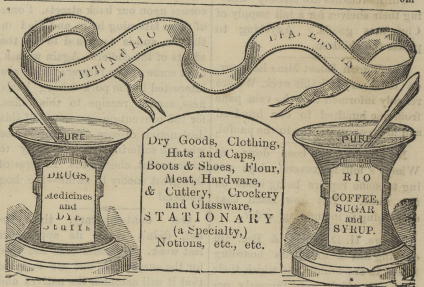

FAMILY GROCERIES, TOBACCO AND SEGARS, IN VARIETY,

HARDWARE, CUTLERY, GLASS AND CROCKERY.

Stationery, Drugs and Dye-Stuffs.

CONFECTIONERIES A SPECIALTY.

Give us a call before purchasing elsewhere, for we feel satisfied that we can make it to your interest, as we sell exclusively for Cash or Barter.

OUR goods are all fresh and desirable, and we still stick to our old motto of Short Profits and Quick Sales.

THE LIGHT-RUNNING

"Old Reliable"

HOWE SEWING MACHINE!

POINTS OF SUPERIORITY:

Simplicity and Perfection of Mechanism.

Range of Work—Without Parallel.

Ease of Operation and Management.

Adjustable Head, &c., &c., &c., &c.

Durability—will last a life-time.

Perfection of Stitch and Tension.

Self-adjusting Take-up.

IN RANGE OF WORK THIS MACHINE CANNOT BE EQUALED. WILL WORK equally well on thick or thin goods, from coarse to finest heavy coatings, or even leather, without change of needle, tension or thread. We will warrant them to do this! Our fine work is equal to any, and our heavy work equals that of any other machine in the world. The Machine makes

THE CELEBRATED LOCK-STITCH,

(the stitch invented by Mr. Howe,) alike on both sides. The tensions are positive for both upper and lower thread. The shuttle tension is upon the thread as it leaves the shuttle, and not upon the bobbin as in most machines, and this tension is invariable, whether the bobbin be full or nearly empty. It is obtained by turning a screw in the shuttle, and can be changed in a moment, without taking out the thread, breaking the thread or threading through holes. What we claim, in substance is, that this is an

HONEST MACHINE,

And if put in your family will do any and all of your work perfectly, will last a life-time, is a willing and ready servant, and is not subject to FITS. Persons who have tried all machines are unanimous in declaring this to be the best learned of any in the market. In the majority of cases our customers learn from the instruction book without further aid.

EVERY MACHINE WARRANTED!

Loss of taxes to the city, 50,000
Loss of rent and depreciation of property, 250,000

A SAD STORY OF ORPHAN SISTERS.

The New York Sun states that three orphan sisters named Sullivan lived on Third avenue, in that city. On October 6th Maggie, aged twenty-one, was married. After the ceremony in St. Paul's Roman Catholic Church the party returned home. The three sisters lay down together for an hour's rest previous to the entertainment that they proposed giving to their friends in the evening. After a short nap the two unmarried sisters arose, leaving the bride sleeping. Soon afterward the husband entered the apartment to awaken his wife so that she might prepare to receive their friends. He called her, but received no answer. Her lethargic condition alarmed him, and he ran for a doctor, but returning she was dead. Maggie's youngest sister, to whom she was passionately attached, was stunned by the blow, and is now a raving maniac, closely guarded in a hospital.

A MOTHER MURDERS HER DEFORMED CHILD.

At Elizabeth, N. J., the trail of Ellen Shelton, colored, for the murder of her deformed child, was begun Monday before Judge Van Wyck at the general term of the quarter sessions. The child was born some time about the month of July last year, and had four arms and three legs. When it was about three months old the child disappeared and the mother said she sent it away to have the superfluous limbs amputated. In July last the body was found in a well not much used, near Westfield, N. J. The trial causes considerable excitement.

WONDERFUL PIGEON ROOST.

The Southern Mr. Rustic says: Pigeons have come into this country by millions. Of evenings the sky is darkened with them in the neighborhood of Dr. Dotson's on the Anglaise. They have made Mr. Dotson's farm their headquarters, and at night the trees and underbrush are loaded down with vast multitudes of pigeons. As this roost is but a short distance from our residence, we have had ample opportunity to watch their maneuvers, and to hear the innocent noise they make. A little before sundown large armies of pigeons are seen coming from different parts of the compass, but each army passes onward as it they intended changing their roosting place. After awhile they return and settle on the trees around the roost, not many of them water than a mile from the place. They make sudden flights from these trees, and the sound of their wings is like that of a storm. There is a constant roaring in the air as myriads of these birds fly to and fro. About dark they fly towards the roost and for a long time they fly round and round, and have the appearance of bees swarming, although the vast number and the tornado-like roaring they make surpasses anything in the power of man to describe. After awhile they alight on the trees and bushes, and the limbs are bent downward, often broken off. The pigeons keep up a constant chattering with their mouths, which can be heard for miles away. It is a strange thing that they try to roost. They still not during the night. So far as sleep is concerned, such a thing is out of the question with a pigeon. They are disturbed by themselves—each through assembled in a spot that none can be still for a moment, and the incessant discharge of fecreous cause them to change their location almost constantly. This roost is visited every night by crowds of men, some with guns and others with poles, in which they use in thrashing the pigeons that happen to be at the point struck.

Hundreds are killed every night; but when light again appears, the vast armies again go forth with apparently as much vigor as ever. Pigeons have been killed in New York with undisturbed rice in their claws, which they had evidently gathered in the rice field in the Carolinas. From these and other circumstances it has been estimated that a pigeon flies at the rate of a mile a minute. Imagine, then, millions upon millions of these birds all on the wing at the same time, over a scope of country not more than two miles square, and a faint idea of the noise they make may be obtained. But no one can fully imagine what a pigeon roost is, or how much noise they make, until one is seen and heard.

There is an abundance of mass here, and we suppose the pigeons will remain until it is all gone. One curious circumstance we almost got to relate. In the neighborhood of this pigeon roost we never see a pigeon from the time they leave of mornings until they return of evenings. They are not eating the mass here at all, but somewhere they are feasting luxuriously, for they are all fat.

KEEP SHEEP.

Every farmer should keep sheep, whether wool is high or low. They are the most profitable stock he can raise. They will eat and live upon what other stock will not eat, unless forced to. They will exterminate weeds and undergrowth, clear from the farm, while the other stock will not. With proper care and management they will about double their numbers yearly. They afford fine meat for the farmer's table, with little trouble. All farmers should raise muttons and fewer wool-less cars.

WONDERS OF ENGINEERING SKILL.

The East river bridge piers are wholly built of granite. Each contains over nine hundred cubic feet, and weighs over seventy thousand tons. The base of the pier covers 77,000 square feet, and is estimated that the total weight of the bridge proper, when loaded with pedestrians, carriages and horses, and railway trains, will be about five thousand tons. The pressure upwards from the base of the pier will be only a little over four tons per square foot.

When is a blow from a lady welcome? When she strikes you agreeably.

MURDER WILL OUT—THE ASSASSIN OF MAGGIE BAUER DISCOVERED.

In August last the mutilated body of a little girl named Maggie Bauer was found in the woods near her parents' dwelling, on Long Island, N. Y. On Wednesday last a young man named Frank McConochie, who was arrested several weeks ago on suspicion of being the murderer of the child, was taken to the place where the murder was committed. Arriving at the place where the body was found he was immediately struck with horror and remorse. He could stand out in his dead no longer, but made a full confession not only of the crime, but of the manner in which he committed it. He also showed where the dead was committed, and the way in which he accomplished it. His narration is as follows:

On the afternoon of the 14th of August, when the murder was committed, he was in a corn field at the time Maggie went to show Kate Hoffman the way through the woods to the Valley Stream depot. He saw them both go past the corn field, watched Maggie's return, and as she got opposite him he sprang out at her and grasped her by the throat to prevent her from making a noise, the poor child meanwhile crying "Maid maid!"

At this point in the confession the mother of Maggie, who was present, sprang upon the prisoner with the ferocity of a tigress, grappled him by the throat, and would no doubt have choked him to death but for the interposition of the officer, who could with difficulty keep her away from the murderer of her child.

McConochie continued: After shaking Maggie free of his grasp upon her throat and carried her through the corn field to the woods, where he attempted to violate her person, and crumpled leaves and the corner of her bonnet in her mouth, tying the string together about her neck. He also took her waist ribbon and tied it tightly around her neck, which completed the work of murder. He afterward broke down some cedar limbs so that he could find the body after dark, for the purpose of hiding it more effectually, but when darkness came on he was afraid to go near the place.

CLEARING STREETS OF SNOW.

A machine for melting snow in cities, which often forms a source of much annoyance and obstruction to traffic during the winter months, has been invented by John Mullaly and John T. Hawkins, of New York. It is claimed that the process has been brought to perfection. Superheated steam is employed for the purpose, and by a simple contrivance the steam at the same time creates a draught in the furnace which increases the heat. One snow melter is said to be capable of clearing off from one to fifteen miles of street in twenty-four hours. The inventors estimate the cost at from one-fifth to one-tenth the expense of the present system of cutting the snow away, and have made a proposition for undertaking the work to the street cleaning department of New York.

CLOSING UP THE CENTENNIAL.

A dispatch from Philadelphia says: The exhibition buildings belonging to the Centennial board of finance will be sold Thursday, November 30th, at 11 o'clock, a. m.; the list comprises the main building and carriage annex, agricultural hall with wagon and pomological annexes, art annex, photographer's exhibition building, shoe and leather building, guard station houses and various other small buildings. The poultry exhibition was to-day placed in perfect order, the entries have been installed, every copy carefully labeled and a full catalogue of exhibits are ready for distribution. Fully five hundred birds are now on exhibition, besides fifteen hundred pigeons of various breeds, including every known breed, from the most diminutive bantam of only fourteen ounces to the largest brahma to fourteen pounds.

John C. Trautwine, an engineer of great experience, who was connected with the construction of the Panama railroad, and who made an exploration for a canal by what is known as the Atrato route, says that no canal can be constructed across the Isthmus, which will be satisfactory for less than \$300,000,000. He holds that it would not be possible to construct a canal on the most favorable route without having tide locks at either end. The piece of the Isthmus along the Pacific shores of the Isthmus range from sixteen to twenty feet, while the rise on the Atlantic side averages only about two feet. He thinks that at least two tide locks will be necessary in order to check the current, which would materially impede navigation.

SICK ANIMALS.

One of our most skillful veterinary surgeons says the best remedy for very many kinds of sickness by which domestic animals are afflicted, is a good dose of ginger salts, (such as of today, while at the same time it is a remedy decidedly inexpensive. The usual dose, as a purgative, is as follows:
Horse, one to two pounds;
Cattle, one half to one pound.
Sheep and hogs, three to five ounces.
Dogs, one to two ounces.
In these doses it is always necessary to give it as a draught, dissolved in two or three times its weight of water; but when given to horses in smaller doses, as a condiment, diuretic or laxative, it is generally readily taken dissolved in part of a pail of water.

COST OF THE GREAT ISTHMIAN CANAL.

John C. Trautwine, an engineer of great experience, who was connected with the construction of the Panama railroad, and who made an exploration for a canal by what is known as the Atrato route, says that no canal can be constructed across the Isthmus, which will be satisfactory for less than \$300,000,000. He holds that it would not be possible to construct a canal on the most favorable route without having tide locks at either end. The piece of the Isthmus along the Pacific shores of the Isthmus range from sixteen to twenty feet, while the rise on the Atlantic side averages only about two feet. He thinks that at least two tide locks will be necessary in order to check the current, which would materially impede navigation.

NOTICE TO BETTER UP OF CLUB.

Persons sending us a club of ten subscribers and \$10.00, will receive an extra copy gratis for one year. For a club of ten for six months and \$5.00, will also receive an extra copy free for six months. This is a rare opportunity, and every one wishing a cheap, readable newspaper, should subscribe at once.

Having purchased a good outfit, we are prepared to do all kinds of job work at reasonable figures, such as letter heads, envelopes, stationery, etc., orders, all kinds of blanks and Baptist Minutes.

STOKES WHO KILLED JIM FISK, HAS BEEN RELEASED.

The number of visitors at the White House averages two hundred per day.
A store was labeled of \$3,000 worth of goods in New York, \$3,000 nights ago.
Republican rule in the South has increased the debt from \$35,000,000 to \$315,000,000.
A disastrous fire occurred at Akron, Ohio, some days ago. Loss estimated at from \$50,000 to \$75,000.
Great distress prevails in Monte negro. It is reported that there are 10,000 homeless refugees dying of starvation.
Two children were poisoned in Atlanta, some days since, by eating pieces of common pasteboard b. Their lives were saved, however, by the doctors.

John A. Lee, a native of Indianapolis but for many years a resident of Augusta, committed suicide in the latter named place, on the 31st ult., by shooting himself in the head.

Louisville dispatch. The town of Orleans, Ind., was flooded by an extraordinary rain on the 31st ult. the water rose as high as the window sills. Loss is probably \$100,000.

A dispatch from Richmond says the boiler of a locomotive on the A. M. & O. ran exploded at Abington the other day, killing the fireman and engineer, and maiming a youth badly.

Charles Williamson alias Charles Stephens alias Perriou, convicted of forging bonds on the New York Central and Buffalo, New York and Erie railroad companies, has been sentenced to State prison for fifteen years.

London telegram. The Belgrade correspondent of the Times states that in the county between Paranth and Delgrad and in the mountains near Sautcher, there are 110,000 men, women and children, almost naked and literally starving.

A dispatch from Cincinnati says: A Springfield, Ohio, special, says that two large buildings of the Miam powder mills, fourteen miles west of this city blew up with terrific violence, the other day, only killing one man. Several others were severely injured. Windows broken for miles. Damage \$15,000.

A false alarm of fire was created at a theatre in San Francisco, on the night of the 30th ult., and by the rush made by the audience to escape by the single means of exit, a number of persons were thrown down and trampled upon. The police dragged out twenty dead persons and about the same number of wounded.

In St. Louis, a few nights ago, a gang of negro prostitutes attacked Joseph R. gun and robbed him of three \$1,000 and \$8,500 in promissory notes. Regan felt so bad over it that he attempted to drown himself, but was prevented. The notes and one bond have been recovered, and some of the women arrested.

Two boys, of Council Bluffs, aged sixteen, induced two highly respectable girls to elope. To do this successfully, money was necessary, and one of the girls drew \$700 of her mother's money from the bank, and the party bought four first-class tickets from Omaha to San Francisco, costing \$100. They took the noon express, but were not missed until night, when search was begun for them. On the next day, their whereabouts was ascertained, and a telegram was sent to the conductor of the train, intercepting the fugitives at Sidney. They were not informed that their arrest was about to take place, but were allowed to ride on in blissful ignorance until they reached Chicago, where the Sheriff was waiting for them. They were arrested and lodged in jail, there to await a requisition from the Governor of Ohio.

U. S. Commissioners Smith and Harrison tried the following parties from Dawson and adjoining counties, in Atlanta, the other day, for illicit distillation: Emanuel Runkel, cll, Jeff Yoder, E. T. Collins, Jos. Thompson and Jas. Ross were discharged. George Lawless waited examination, and will plead guilty before the District Court.

Larry—Collins plead guilty, and was fined \$100 and costs, and sentenced to six months imprisonment. Lawless also plead guilty, and was fined costs and imprisonment for five months.

The suspension of the Continental Life Insurance Co. affects some seventy thousand policy holders, as well as its other creditors. Like the other life insurance companies that have failed, the exhaustion of funds seem not to have been occasioned by the decrease of an unusual number of the assured, but by injudicious speculations in stocks and real estate.

A man must be pretty drunk to go along the streets holding fast to his coat collar with both hands to prevent falling down.

Editors & Prop's.

DAHLONEGA, GA.,
SATURDAY, Oct. 10, 1876.

We kept our columns open at a very late hour for the arrival of the mail, in order to give our readers the very latest election news from all parts of the country. A synopsis of the telegraphic dispatches will be found in another column.

George Clarke killed Fletcher Tolbert in Atlanta on last Sunday night.

Several of the Savannah refugees who returned to that city some days ago, have died of yellow fever.

A man of Okonoe county has gathered two thousand bushels of apples from his orchard this fall.

This is what the Atlanta Commonwealth says: "The Dahlonega ADVERTISER is improving every week, and is now a fit advocate of the mountain people's interest."

A party of negroes broke into a residence six miles from Aiken, S. C., on the night of the 2nd, and murdered Mr. Harrison and his nephew named Postman. After the robbery the murderers set the house on fire over the dead bodies.

The average expenses of the Atlanta public schools for five years have been \$49,000; their property is valued at \$85,000. In the schools last year were 1,815 boys, 1,994 girls—total 3,809—with 20 teachers and an average of 47 pupils per teacher. There are 42 white and colored teachers. Population of Atlanta 39,000; number of children from 6 to 18, 10,362—7,338 whites, 3,114 colored.

A dispatch from Salt Lake, dated the 2nd, says: A report from Camp Stambough, Wyoming, says a village of five hundred lodges of the Shoshones was attacked on October 30th by a large Sioux party, estimated at twelve hundred lodges, at Pointed Rock. As far as learned, only one Shoshone, by the name of Humpy, escaped. He was the Indian who saved the life of Captain Henry in Crook's second fight this summer.

A telegraph line is to be erected between this city and Dahlonega—Augusta Constitutionalist.

We hope this item of news to us is true, and that very soon a narrow gauge railroad will also be built between Gainesville and Dahlonega and continue to Blairsville, Union county. One of the great needs of this country at this moment is narrow gauge railroads where they can be built without too much expense, and where they are impracticable, good turnpike wagon roads, with sufficient telegraph lines for the purpose of trade, all through the valleys and over the mountains of Northeast Georgia. Were these improvements inaugurated in earnest in a few years the yield of corn, tobacco, wheat, fruit, and all kinds of vegetable produced on the south slope of the Blue Ridge would astonish the world.—*Southern*.

A correspondent of the Herald, writing from Charleston on the day of the great procession in honor of Hampton, says: "Along the line the colored Democrats, as well as the white men, women and children, were subjected to the most abusive and vilest insults from negro roughs and women, particularly the women. They lined the streets and made indecent exposures of their persons and cursed the white and black Democrats in the most foul and indecent language. It was all submitted to, under instructions from Gen. Hampton. The entire police force was out, but could not put a stop to this assault. In some cases the negro women fairly performed an Indian war dance with clubs and knives, and in one or two instances attempted to pull colored men from the ranks and mob them. No disturbance occurred, owing to the forbearance of the whites, several of whom were actually knocked down on the streets."

OLD LUMPKIN TO THE FRONT.

Sold From Crown of the Head to Sole of the Foot—Three Rousing Cheers for Uncle Samuel and Hendricks.

W. B. TOWNSEND,
W. P. HOWELL,
Editors & Prop's.

DAHLONEGA, GA.,
SATURDAY, Oct. 10, 1876.

In the old Ninth the battle has been fought and the victory won easily. In our county only twenty-eight Republican votes cast. We never before witnessed more quiet than during the day of the election—not a drunken man to be seen—all was in perfect peace and the best of feeling prevailed. All voting the same way. Rats are very scarce in Northeast Georgia, but a few are found, and they are as black as the dark hour just before day, and of the African descent, with a few whites who act as guides and advise them as to the course to pursue. Poor, ignorant creatures! to be led by the devil's imps into his own snare—get these behind us Rads, your little hand is too weak to impede our progress in this mountain region, where we intend the Democratic banner to wave over honest people, and flap its wings in our pure mountain air, independent of all scallawags, thieves and plunderers, never to be bribed, disgraced or brought to shame so long as there is one of our mountain boys left to stand as a guard at each gate-way and have so long been struggling for this one great object, "freedom."

It will be seen from the following figures that the vote cast in this county was very small, and with a few exceptions of twenty-eight, they were all for Tilden:

Tilden	566
Hayes	28
Tilden's majority	538
Hill	545

A GREAT WORK INDEED.

The St. Louis Globe announces the arrival in that city of Mr. Richard Ivers, of San Francisco, who comes with authority to contract for forty thousand tons of iron plate to be used in the construction of a canal for conveying water from the uplands of San Francisco, a distance of one hundred and twenty miles. The contract will amount to about \$25,000,000, and the Globe anticipates that it will be given to the Vulcan Iron Works, of that city. This is a noble enterprise of San Francisco. It resembles the grand works of Rome, the remains of whose aqueducts are still the admiration of the world. With pure water from the Sierras, San Francisco will have an advantage over any other city in the Union.

SILVER MINE.

The rich silver mine in Hall county is now being developed by Mr. Lowman, of New York. The Southern says: He has invested in this mine, and says the ore is better than any he ever saw at the same depth. When sunk to two or three hundred feet, and the vein maintains its size and quality, it will command an exorbitant price. The ore at forty-five feet yields from \$60 to \$78 per ton of silver, and about \$7 per ton of gold, and the lead will pay from \$30 to \$60 per ton. The vein is from six to twelve feet thick, and extends for an indefinite distance southwest and northeast.

Gov. Brown, who has just returned from an extended tour through the West, says that Denver is a well built city of about twenty thousand inhabitants. It is an exceedingly dry climate, but little rain falls. The atmosphere is so clear that mountains can be seen at the distance of seven y-five miles with the natural eye. The farmers are dependent upon irrigation for success in agriculture. The grasshopper is a terrible drawback to successful farming. At least three years in every ten they infect the whole country, and destroy every vestige of vegetation to be found in their path.

Governor Stanford of San Francisco is reported as having made heavy purchases of furniture in the Chinese department of the Centennial, including a bedstead costing several thousand dollars.

UNCLE SAMUEL.

News of the Contest!

W. B. TOWNSEND,
W. P. HOWELL,
Editors & Prop's.

DAHLONEGA, GA.,
SATURDAY, Oct. 10, 1876.

Large Democratic Gains Reported From Different Parts of the Union.

We clip the following dispatches from the Commonwealth of last evening's mail, all dated the 7th:

The different dispatches received at Atlanta, show that Georgia has gone Democratic by about 60,000 majority.

Indiana concedes to be Democratic by 5,000 majority at least.

Tennessee—There is no doubt of the election of Porter, Democratic, and certainly 8 or 10 Congressmen by the Democrats.

Kentucky—Tilden's majority estimated at over 60,000. A clean Democratic Congressional delegation.

New Jersey—Tilden's majority probably 5,000 to 5,000. Legislation will probably be Democratic.

Texas—Democratic majority probably exceed 75,000.

Delaware—Democratic majority probably 2,500.

New Hampshire—Small Republican majority.

Massachusetts—Republican majority probably 50,000.

Illinois—Republican by 29,000.

South Carolina—The election will be very close, with chances in favor of Hampton for Governor and Hayes for President.

Connecticut—138 out of 167 towns gives Tilden 4,684 majority.

Virginia—Democratic gain.

Maryland—As far as heard from show Democratic gains.

Pennsylvania—Pretty close.

Ohio—Small Republican majority.

Maine—Fifty towns gives Hayes, 17,298; Tilden, 12,242.

Mississippi—30,000 for Tilden.

Wisconsin—Democrats probably carried the State.

North Carol.—Democrats carried the State.

Indiana—Democratic majority 7,000.

New York—Tilden's majority 53,000.

Michigan—Republican majority 2,669.

Louisiana—Republicans claim the State by 4,000.

California—Small Republican majority.

Alabama—Democratic majority probably 25,000.

West Virginia—Gone Democratic by 12,000.

Arkansas—Democrats claim 40,000 majority.

New York—Republican majority probably 6,000.

Dispatches say that the Republicans give it up, for it is almost certain that Tilden will be our next President.

Radicalism Taking Its Flight!

Large Democratic Gains Reported From Different Parts of the Union.

We clip the following dispatches from the Commonwealth of last evening's mail, all dated the 7th:

The different dispatches received at Atlanta, show that Georgia has gone Democratic by about 60,000 majority.

Indiana concedes to be Democratic by 5,000 majority at least.

Tennessee—There is no doubt of the election of Porter, Democratic, and certainly 8 or 10 Congressmen by the Democrats.

Kentucky—Tilden's majority estimated at over 60,000. A clean Democratic Congressional delegation.

New Jersey—Tilden's majority probably 5,000 to 5,000. Legislation will probably be Democratic.

Texas—Democratic majority probably exceed 75,000.

Delaware—Democratic majority probably 2,500.

New Hampshire—Small Republican majority.

Massachusetts—Republican majority probably 50,000.

Illinois—Republican by 29,000.

South Carolina—The election will be very close, with chances in favor of Hampton for Governor and Hayes for President.

Connecticut—138 out of 167 towns gives Tilden 4,684 majority.

Virginia—Democratic gain.

Maryland—As far as heard from show Democratic gains.

Pennsylvania—Pretty close.

Ohio—Small Republican majority.

Maine—Fifty towns gives Hayes, 17,298; Tilden, 12,242.

Mississippi—30,000 for Tilden.

Wisconsin—Democrats probably carried the State.

North Carol.—Democrats carried the State.

Indiana—Democratic majority 7,000.

New York—Tilden's majority 53,000.

Michigan—Republican majority 2,669.

Louisiana—Republicans claim the State by 4,000.

California—Small Republican majority.

Alabama—Democratic majority probably 25,000.

West Virginia—Gone Democratic by 12,000.

Arkansas—Democrats claim 40,000 majority.

New York—Republican majority probably 6,000.

Dispatches say that the Republicans give it up, for it is almost certain that Tilden will be our next President.

Radicalism Taking Its Flight!

Large Democratic Gains Reported From Different Parts of the Union.

We clip the following dispatches from the Commonwealth of last evening's mail, all dated the 7th:

The different dispatches received at Atlanta, show that Georgia has gone Democratic by about 60,000 majority.

Indiana concedes to be Democratic by 5,000 majority at least.

Tennessee—There is no doubt of the election of Porter, Democratic, and certainly 8 or 10 Congressmen by the Democrats.

Kentucky—Tilden's majority estimated at over 60,000. A clean Democratic Congressional delegation.

New Jersey—Tilden's majority probably 5,000 to 5,000. Legislation will probably be Democratic.

Texas—Democratic majority probably exceed 75,000.

WOOD CHECK VALLEY, GA.

Dear Advertiser: As I will soon have to leave the Valley and its many attractions, I will write you another letter before my departure. News, however, is very scarce in these diggings, and, consequently my letter must necessarily be somewhat like "angel's visits, few and far between," and also of short duration. Gathering the various crops is the order of the day now, and I will take occasion to remark just here that the crops are generally very good. The yield of some of them was considerably earlier. The heavy crop, as usual, is fine, an abundant quantity and of a most excellent quality. When they all get grown there is no telling the number of the wires that will go out from them to be an help-meet for their fellow man, and to speed on the progress of the human (Smith) race.

Corn shuckings are becoming quite fashionable. I attended one a few nights ago down at Brother A's, on Lick Creek, and had a splendid time. A short time after our arrival, supper, which is the best part of shucking, was announced as ready, and were seated thither, where we found a table literally groaning under good things to tempt the palate and strengthen the inner man. Chicken dumplings, pumpkin custards, slice-tater pie and "sch like." After eating until we were as light as a drum head, we with great reluctance, quit, (for we couldn't get near round), and returned to the corn pile where potatoes were discarded freely and in a lively manner. The same old "Trower" who portrayed to us the beauties (f) of Radicalism, and showed us the difference between a Democracy, I can't remember how, was there to bark and bark he would and bark he did, until the termination of the shucking and the dispersion of the crowd put an end to his barkings, and then he or any body else didn't know what he had been barking at or what he had been barking for.

The Valley school will soon be out, and I reckon everybody, the teacher not excepted, will be heartily glad. The latter, however, seems to be very well contented and enjoying himself finely. She has a good place to stay, and plenty of good things to eat, to say nothing of the bewitching fascinations of the gentleman who continually surrounds him. Mr. Editor, did you ever teach school, or plow a mule, or ride an ox, or anything of the kind? I have tried all except the ox part and I am now ready for it or any other emergency. Teaching a one horse country school, where the attendance is as uncertain as the wind, and where there is always somebody who thinks he knows it all and in reality, knows no more, both, than a hog does of holiday, to direct and to criticize you, is I imagine the next thing, in point of pleasure, to being in the chain gang. We know of one other position possibly less desirable, and that is to be tied for life to a cross, peevish, quarrelsome woman twenty-nine years older than yourself, who, when she says go you must go, come, and you must do it; even if it is to work all day and then card and spin until bedtime, of which she is to be the judge. This is no imaginary case. But we really don't think the boy did it for purpose, but believe she just "hooked him in anyhow." The Centennial is over and I didn't get to see the show; but if I live and nothing happens I expect to go to the next one. You may expect to hear from me some day again either from here or some other s-p-o-t town.

Yours, truly,

British manufacturers are complaining that the street cars there are made in the United States because the British mechanics cannot do the work; the iron girders for the Central Station in Glasgow are being constructed in Belgium, some of the Sheffield steel manufacturers are leaving the country and American cotton goods can be exported from Liverpool cheaper than those of English make can be from Manchester.

Julia Lynch, a young lady eighteen years of age, has just got \$1,000 damages in New York for having been bitten by a dog.

HAVE YOU TRIED

SIDALL'S
MAGNETIC SOAP?
FOR USE IN SUMMER AND WINTER.
"S" Makes clothes clean, sweet and very white without Boiling or Scalding.

No Rough Hands!
No Yellow Clothes!
No Wash Boilers!
No Steam in the House!
Guaranteed under \$50 penalty not to injure clothes, and superior for toilet and laundry. Sold at stores, or a family package will be sent, express charges prepaid, on receipt of one dollar and fifty cents. One reliable dealer wanted at every prominent point as agent, with whom a liberal arrangement will be made.

VISSCHER & HALL'S
Concentrated Potash.
Warranted equal to any Potash in the market, and far superior to Concentrated Lye for all purposes for which it is used.

Put up in one pound metal cans, convenient for use in families for making hard and soft soaps, and for cleaning purposes generally. Directions for making soap, etc., accompany each can.
For cleaning type, presses, machinery, and all kinds of metal, and for washing and fruit trees in the spring, it is unequalled for excellence and convenience of use. For use by grocers and druggists everywhere.
Vischer & Hall's Potash and Disinfectant is invaluable for the destruction of the potato bug, cotton worm, grasshopper, locust, etc., and is harmless to men and animals, and far cheaper than Paris green for the destruction of vermin. It is also valuable as a disinfectant, purifying the air in hospitals and sick rooms, and destroying the foul odors of stables, cellars, stables, etc. Put up in one pound cans for sale by druggists and grocers everywhere.

Local News.

Our jail is again empty.
Only forty-five days till Christ-mas.
The Highlower river is almost dry.

Possums sell at twenty cents a piece.
A large supply of warranty deeds for sale at this office.

Mr. Joseph Patton, of Blairsville, was in town this week.

Read new Sheriff's sales in another column. Also an estray notice.

There are now four candidates for the office of Sheriff in this county.

There are a number of our farmers who are not done sowing wheat yet.

We noticed in town on Tuesday, Capt. Asbury, of White, our present Senator.

Solicitor General, C. D. Phillips, of Marietta, passed through town on Tuesday.

Tuesday was regular sale day, but nothing was disposed of. This speaks well for our citizens.

The Signal, after a week's rest and recreation, came out bright and early on last Friday morning.

We learn there were good crops made in White county this year, and the people are industrious and happy.

Two colored ladies of our town, had a little wool pulling some evenings ago. Some heads were the result.

An old farmer informed us one day this week that he made the best crop this season that he has had for ten years.

A young man informs us that he went hunting some nights ago and his dogs treed nine possums up one tree.

Mr. Heyden, of this place, has a stove which he heats up by means of kerosene oil. This novelty is quite new to us.

Mr. Pinckney Howell, who was taken from this place, some days ago, charged with violating the revenue law, has been released.

Over fifty prisoners and witnesses were carried through Gainesville to Atlanta, some days ago, by U. S. Deputy Marshal Findley.

It will be seen by a notice elsewhere that an election will be held on the first Saturday in December, for the election of an Intendant and four Councilmen.

One of our young men and a negro had a dispute in the store of N. H. Hand & Co. on Friday night, which resulted in the latter receiving a blow on the head with a stick and both forking over a small sum of money to the city council.

The "fattest take" of the season in the form of a sick-tailed possum, was caught on Wednesday, which weighed sixteen pounds even, before cleaning, and fifteen pounds after being prepared for the oven. Who can beat this? Bring in another hoss!

The announcement of Mr. John C. Early appears in this issue. This gentleman is by no means a new hand at the business, as he was our Sheriff some years ago, and gave the utmost satisfaction to the people. He was a terror to evil-doers and a faithful, economical and energetic officer of the law. A gentleman with such an honorable record needs no further comment from us.

A number of young sportsmen went out hunting on Saturday last, for a bit of venison. Upon reaching Mr. Winny's field, some two miles from this place, they set fire to a broad sage field covering an area of some seventy acres, which was under fence, and the result was the thoughtless application of one hundred pounds of fencing. This is no small loss on the part of Mr. Winny, and should impress our sporting young men with the fact that they should not make others suffer for the sake of a few hours' pastime in chasing the nimble hare.

The vein at the Lawrence mine is improving in richness. The ore shows gold beautifully.

Mr. Keller, who has been going to school here for some time, left for his home in or near Savannah, one day this week.

Miss Lizzie A. Woodward has a word for the ladies in this issue. Read her card, and learn of the innumerable little fineries she has on hand. Call and see her.

BOARD OF TRUSTEES.

The Board of Trustees of the N. G. A. College will meet to-night (Friday) at the Eagle hotel. Business of importance to transact.

By order of W. P. Price, President.

Mr. Stephen Rice has just finished up one of the finest one horse wagons ever put up at this place. The work is good and substantial, and the finish, painting, &c., is unexcelled for neatness and elegance. It was made to order, and will be shipped below Atlanta in a few days. It is a perfect beauty, and reflects credit upon Mr. Rice.

The celebrated Pigeon Roast mine is fast becoming noted for its richness, and will be long rank among the leading mines of this section. Capt. Ogde had on exhibition last Saturday, a number of specimens which were taken from this mine some days ago. Out of thirty-five pennyweights of this gentleman taken out twenty-five pennyweights of gold.

In this issue will be found the announcement of Mr. John Hutcherson, for Tax Receiver and Collector of Lumpkin county. Mr. Hutcherson is a resident of Annapolis district, and that district certainly is entitled to favor in this matter, as it is about the most substantial district, as to solid Democracy, in the county, besides, when it can consistently be done, rotation is but fair and just, and Mr. H.'s district can reasonably claim his support on this ground. He is a man in every way qualified for the office, and one in whom the people may well have confidence.

We call the attention of the whole universe, and the trading public especially, to the advertisement of Sit-ton & Bro., those princes of merchants who never fail to give satisfaction, both in quality and price of goods. Their mammoth stock of dry goods and groceries are composed of the very best of the market affords. It is no trouble to show goods at this house, they take a pride in doing so. Walk right in and get your money's worth, as you will be sure to get a "centennial" bargain and such you will not be likely to get more than once in a hundred years.

JUSTICES COURT.

James Rider was arrested, and brought before Justice McDuffie R. Moore on last Saturday, charged with using profane language in the presence of females. The oath of the principal witness, against him, was invalidated by good citizens, and the Court acquitted the prisoner.

After being discharged, Mr. Rider voluntarily filed an affidavit, to the effect, that he never used any such language as witness testified he did.

The judgement of the court was heartily endorsed by all who knew the facts in the case.

WHITE SUPERIOR COURT.

We learn from parties that White Superior Court adjourned at 12 o'clock on Saturday, after a heavy week's work. Judge Rice presiding with his usual dignity and dispatch. No cases of felony were tried, but a great many misdemeanors involving fines and imprisonment. On the civil docket the case of E. P. Williams vs. McChirre and his wife, being a bill of equity involving some 7,000 or 8,000 dollars, was tried, taking up some two days of the court. Our townsmen, Col. Boyd and Col. Estes, of Gainesville, were counsel for plaintiff, and Judge Sutton, of Clarksville, and Col. Langston, of Gainesville, for defendants. The jury returned a decree in favor of the plaintiff. This case had been on the docket some ten years and created some excitement among the people.

Mr. J. R. Lawton is the only candidate for Ordinary, up to the present time.

Candidates, who wish to be successful, should call at Leary's barber shop and get the latest "cut."

C. J. Thomas with T. J. Dabney, wholesale grocer merchants, Atlanta, Ga., who are well known in this section, come to the front with an advertisement this week.

We regret to learn of the very painful accident which happened to our young friend, Mr. Lorenzo Perry, some nights ago. It seems that Lorenzo had retired for the night, and in shifting the cover, by some means, dislocated his shoulder. He is, however, we are glad to learn, recovering from the mishap.

We call attention this week to the advertisement of R. P. S. Kimbro, No. 56 Whitehall St., Atlanta, Ga. We examined in person a large and varied assortment of dry goods and ready-made clothing, at this establishment, and can truthfully say that it is second to no other clothing house in the city, for quality of goods and low prices. Call and see for yourselves when you visit the city.

CUT THIS OUT.

It May Save Your Life.
There is no person living but what suffers more or less with Lung Diseases, Coughs, Colds or Consumption, yet some won't do what they pay 75 cents for a bottle of medicine that would cure them. Dr. A. B. BROWN'S GERMANY SYRUP has lately been introduced in this country from Germany, and its wonderful cures astonishes every one that tries it. If you doubt what we say in print, cut this out and take it to your druggist, J. W. & W. A. Burnside, and get a sample bottle for ten cents and try it. Two doses will relieve you. Regular size 75 cents. Oct. 14 ly

DO YOU WANT HEALTH?

Wm. W. Y. Dyer—Death, or what is worse, is the inevitable result of continued suspension of the menstrual flow. It is a condition which should not be trifled with, immediate relief is the only safeguard against constitutional ruin. In all cases of suppression, suspension or other irregularity of the "courses" Dr. J. B. Bland's Female Regulator is the only sure remedy. It acts by giving tone to the nervous system, improving the blood and determining directly to the organs of menstruation. It is a legitimate prescription, and the most intelligent Doctors use it. Prepared by J. H. Bland, of Atlanta, Ga., \$1.50 per bottle, and sold by respectable druggists everywhere.

Don't Suffering Penalties.

LaGrange, Ga., March 23, 1870. Bradfield & Co., Atlanta, Ga.—Dear Sirs—I take pleasure in stating that I have used for the last twenty years the medicine you are putting up, known as Dr. Bradfield's Female Regulator, and consider it the best combination ever gotten together for the diseases for which it is recommended. I have been familiar with the preparation both as a practitioner of medicine and in domestic practice, and can honestly say that I consider it to be a suffering remedy, and can but hope that every lady in our land, who may be suffering in any way peculiar to their sex, may be able to procure a bottle, and their sufferings may not be relieved, but they may be restored to health and strength. With my kindest regards, I am respectfully, W. B. FERRILL, M. D. Oct. 14-ly

Estray Sale.

Will be sold before the Court House door in the town of Dahlonega, on the 1st Tuesday in December next, within the legal hours of sale, one horse, about four years old, sold as estray property and appraised at the price of sixty-eight dollars. Nov. 10 W. H. SATERFIELD, Sh'ff.

NOTICE.

Agreeable to an act of the legislature incorporating the town of Dahlonega, there will be an election held on the first Saturday in December next, at the Court House, in the town of Dahlonega, for the election of an Intendant and four Councilmen. A. J. REZER, Intendant Protem. P. M. SUTTON, Clerk of Council.

Lumpkin Sheriff's Sales.

Will be sold before the Court House door in the town of Dahlonega on the first Tuesday in December next, the following property, to-wit: Fifteen acres of land more or less, part of lot No. 115 and 200, in the 11th District of originally Hall, but now Lumpkin county. Also one mule, one cow and calf, and one two horse wagon, as the property of A. L. Garvin, Executor of David Garvin, deceased, to satisfy a \$1000 bond from Lumpkin Superior Court in favor of A. M. Whitehead against A. L. Garvin, Executor of David Garvin, deceased. Nov. 10 to W. H. SATERFIELD, Sh'ff.

THE VERY BEST? TH LILLY COW? (With a fine old chrome premium) will be sent to any address one year for \$1.25, or \$1.00 without premium, and postage prepaid by the publisher. The COURIER is a large eight-page weekly, devoted to local, household and generally interesting reading. Its local column is rich, and not more reliable with family, fun and frolic. A really fine old chrome is given free to every subscriber. It gives more for the money than any paper published in the South. As an advertising medium, the Courier is second to none.

WANTED. I want an AGENTS active, energetic agent in every locality, who can easily make from \$1 to \$7 per day. Write for specimen and terms to agents. Address: SAMUEL R. FLEMING, Publisher Weekly Courier, Ellijay, Ga. Oct. 14-ly

DRUGGIST,
AND DEALER IN
AGENTS, OILS,
WINDOW GLASS,
FINE WINES AND LIQUORS, FOR MEDICAL USE, etc.
Also Proprietors of the following popular remedies:
PONCE DE LEON BITTERS.
A pleasant remedy for Indigestion and other diseases arising from a disordered condition of the stomach, and of decided advantage to persons recovering from any debilitating disease.
ESSENCE OF JAMAICA GINGER.
A pure and concentrated essence of Jamaica ginger, for medicinal and domestic use. It is a valuable remedy for nervous debility, cholera morbus, &c., is an invaluable remedy.
EUREKA NERVE AND BONE LINIMENT.
A sovereign remedy for bruises, sprains, cramps, stings of insects, stiffness of the joints, neuralgia, &c. I do not claim that it will cure old chronic cases of rheumatism, I only say that it will give decided relief and I have information of perfect cures, having been made by the use of it.

HOWARD'S WORM CONFECTIONS.
A pleasant, safe and effective remedy for worms, the confessions not having any unpleasant taste. Children are fond of them.

HOWARD'S IMPROVED CONDITON POWDERS.
For horses and dogs. Horses low in flesh, bite round, and in bad health generally, will be largely benefited by the use of these powders. Given to dogs occasionally they will keep in good health and not be liable to cholera.

HOWARD'S CHICKEN POWDERS.
A certain prevention (and cure if used in time) of gripes, cholera and other diseases of chickens, turkeys, &c.
The above remedies for sale by country merchants generally.

G. J. Howard,

FAMILY GROCERIES, TOBACCO AND SEAGRAMS IN VARIETY,
HARDWARE, CUTLERY, GLASS AND CHOCOLATE.

Stationery, Drugs and Dye-Stuffs.

CONFECTIONERIES A SPECIALTY.

Give us a call before purchasing elsewhere, for we feel satisfied that we can make it to your interest, as we sell exclusively for Cash or Barter.

OUR goods are all fresh and desirable, and we still adhere to our old motto of Best Profits and Quick Sales.

THE LIGHT-RUNNING

"Old Reliable"

HOWE SEWING MACHINE!

POINTS OF SUPERIORITY:

Simplicity and Perfection of Mechanism. Durability—will last a life-time.
Range of Work—Without Parallel. Perfection of Stitch and Tension.
Ease of Operation and Management. Self-adjusting Takes-up.
Adjustable Feed, &c., &c., &c.

IN RANGE OF WORK THIS MACHINE CANNOT BE EQUALLED. WHILE WORK equally well on thick or thin goods, from gossamer lacy muslins, or even leather, without change of needle, tension or thread. We will warrant them to do this! Our fine work is equal to any, and our heavy work exceeds that of any other machine in the world. The Machine makes

THE CELEBRATED LOCK-STITCH,
the stitch invented by Mr. Howe, alike on both sides. The tensions are positive for both upper and lower thread. The shuttle tension is upon the thread as it leaves the shuttle, and not upon the bobbin as in most machines, and this tension is variable, whether the bobbin be full or nearly empty. It is obtained by turning a screw in the thread or drawing through holes. What we claim, in substance, is that this is a

HONEST MACHINE,
And if put in your family will do any and all of your work perfectly, will last a lifetime, is a willing and ready servant, and is not subject to FITS. Persons who have tried all machines are unanimous in declaring this to be the easiest learned of any in the market. In the majority of cases our customers learn from the instruction book without further aid.

EVERY MACHINE WARRANTED!
If you are thinking of buying, and are prejudiced in favor of any particular machine, at least examine the "HOWE" before you purchase.

GAINESVILLE, GEORGIA. July 1st

MISCELLANEOUS.

HORRIBLE ATROCITIES IN CHINA.

The North China Daily News says: We have news of further per-
secutions of the most savage charac-
ter in Szechuen. On the 18th of
July in the town of Yuen-shih-chang,
in the district of Loui kiang, pla-
cards hostile to Christians and Eu-
ropeans were posted in various
places in the market. About nine
o'clock on the morning of the 20th
a line of four or five thousand armed
men drew round the market to
prevent Christians from escaping.
They manufactured a large wooden
cross, and tied on it successively all
the Christians they could catch, and
then cut them to pieces. Among the
victims were two brethren, of whom
one was the father of a convert,
and the other a young girl of
fifteen, whose brother was a Chris-
tian. Like the others, she was
stripped of her clothes and cut to
pieces. The number of persons killed
was eight. The wounded are very
numerous. It is necessary to
add that the houses of the Christians
were pillaged and destroyed. About
thirty other persons are missing. On
the 22d the brutes went to the mar-
ket of Feimow-shen, where they
murdered four more Christians, but
of this butchery we have no details.
It is said that the principal chiefs
of this band of assassins are emissar-
ies from Kian pek, where the per-
secution first broke out, who are
travelling the province in full sight
and knowledge of the mandarins,
to excite trouble against the Christians
and drive out Europeans, and thus
elude any inclination on the part of
foreigners to extend their trade with
the interior China.

MEDICAL SCIENCE IN SERBIA.

Serbia has hitherto been without
doctors. In a few of the large towns,
no doubt, there were medical men
mostly brought up in Vienna, but in
the village there were absolutely
none. Their place—I should per-
haps say is—supplied by "wise wo-
men" called "babas." These "ba-
bas" profess to have an intuitive
knowledge of medicinal plants; but
that intelligent being, the Serbian
peasant, placed much less trust in
their medical than in their magical
skill. Their performance in this line
was remarkable, and their rustic pa-
tients had every faith in it. The
most commonly fatal diseases in
Serbia are consumption and conges-
tion of the lungs. The staple remedy
for the latter ailment is to ad-
minister to the patient three apples,
grown on the same bough. If after
eating these apples, which are sup-
posed to have some mysterious con-
nection with the Trinity, the patient
feels no better, then, but not until
then, the wise woman adopts more
vigorous measures. The poor
"malade" is laid on the ground on
his stomach, the wise woman scats
scent salt over him, and mumbles
around him numbing capitalistic
words. This seems to be a kind of
exorcism and would indicate a belief
that the illness is caused by witch-
craft or demoniacal possession.—
London Standard.

At Woodstock, Vt., on Tuesday
last, says an exchange, as Myron
Emery, aged seventeen, was going
to his barn, which is a short dis-
tance from the house, he was seized
by three masked men, who gagged
and dragged him two miles to Silver
Lake and threw him in. The men
then fled. Emery managed to free
himself, and got ashore, where he
was found completely exhausted and
insensible. The perpetrators of this
outrage have not been discovered,
and no cause can be assigned for the
deed.

Ab Jams is the name of a Chinaman
in Nevada. He is addicted
to the flowing bowl, and some days
it is difficult to recognize him from
his brother Jim Jams.

A SAD STORY.

FROM WEALTH TO INBANTY AND POV-
ERTY.

Among the shabby, dirty and ragged
unfortunates who came to the
Southern Station last night to obtain
a night's lodging, was an old man
about sixty years of age, showing the
evidence of fatigue and travel by his
tattered footclothes and wretched
apparel. He gave his name to Cap-
tain Delancy as Paul Venier, of
New Orleans, and was shown back
to the room assigned to tramps. A
glance at his rags and careworn face
would never suggest to the observer
that Paul Venier was at one time
a leading citizen of the Crescent
City, but this indeed the case, and the
history of his life has in it all the
elements of a dramatic story, which
we may read, throw aside and say it
is improbable. A few points in the
life of this unfortunate individual
may not be uninteresting. About
thirty-five years ago there arrived in
New Orleans a young and handsome
man, accompanied by his wife, a
Creole, in the full bloom of her youth-
ful beauty. The couple had come
from Martinique, and brought with
them a large sum of money, which
Venier proposed to invest in trade.
They settled in a magnificent house
on the bank of Lake Pontchartrain,
which became, on account of the so-
cial qualities of the master and mis-
tress, the central point of attraction
for all the aristocratic people of the
neighborhood. The husband had in
the meantime embarked in the ship-
ping and commission business, and
was very successful. Realizing
largely on his investments, he be-
came one of the wealthiest citizens,
while he at the same time attained a
reputation for unblemished business
integrity, probity and honesty. Three
children had been born, and every
bright prospect in life seemed at-
tainable without effort to the young
couple. About this time, a gambler
well known in those days for his
success with cards, and remarkable
for his handsome exterior and pleas-
ing address, met Madame Venier at
a bal masque. Other meetings fol-
lowed, and the foolish woman aban-
doned her luxurious home, her chil-
dren, her husband and her honor,
listened to the seductive addresses
of her destroyer, and fled to Cuba.
The husband followed, but never
succeeded in coming up with his
wife, to whom he had forgiveness to
offer, nor with her seducer, for whom
he had vengeance. He gave up the
pursuit and returned to New Or-
leans. But business had no longer
any interest for him, now that she
for whom he had labored so earnest-
ly had deserted him. The three
children fell victims to the cholera,
and Venier, a broken down man,
aged before he was old, sold out his
business and disappeared. Some weeks
later he was discovered on the levee
wandering up and down homeless,
and without a penny of the large
sum he had realized by the sale of
his property. He was taken to a
mad house, where he remained
twenty three years, and finally when
former friends had forgotten him,
and he was no longer an object of
interest to the outside world, he was
released, helpless and penniless, to
live or die as chance befell him. In
his wanderings he reached Baltimore
last night, carrying with him, as a
link connecting him with happier
days, the New Orleans and Mobile
papers which told the story of his
wife's desertion, the subsequent
death of his children, and of his im-
murement in the mad-house. Poor
old man! he has but a few steps to
take in life before he will go out
with the tide, the wreck of a life
blasted by a woman's perfidy.—Bal-
timore American.

The 30th day of November has
been set apart by the President of
the United States, as a day of thanks-
giving and rest.
The bottom has fallen out of the
Republican bucket.

A DEN OF SERPENTS IN KANSAS.

On the 2d inst., toward evening
a young son of Mr. A. Thompson,
who lives about eight and a half
miles from town southward, was
passing over a hill on the farm of
Mr. Gibbs Myers, a neighbor in quest
of his father's cattle, when he ac-
cidentally stepped into a small hole,
and on drawing his leg out quickly
drew from it several serpents. The
child frightened the lad, and he ran
home with all speed and reported
his experience. He soon returned,
however, with another lad, and found
that the hilltop was the home of a
community of crawling reptiles, and
before they left the spot they had
dispatched forty-six. Day after day
this work went on, until last Sat-
urday the dead snakes were picked up
counted and placed in a pile near
the mouth of the den. The number
of one thousand one hundred and
seventy-six was counted, and still
the work of killing goes on from day
to day. We went to the place on
Monday, accompanied by L. H.
Synth, and the astounding sight of
near two thousand snakes in one
pile met our gaze, with live ones
still in apparently undiminished
numbers upon the hill. We killed
fifteen in as many minutes, and had
enough, with two little lads were
all the time at work. And the work
of killing has been going on ever
since, until now we hear that about
three thousand have been dispatched
and there are hundreds and perhaps
thousands left. The snakes are of
the species called the blue racer,
with a sprinkling of adders and vary
in size from the thickness of a man's
finger to that of his wrist, and in
length from a foot to four or five
feet. They run with remarkable
speed, endeavoring to escape and
not much disposed to show fight.
They are now, however, becoming
vicious, and show fight, and at times
startling aggressive.—Concordia
Enterprise.

A TRAGEDY IN VERMONT.

At Grafton, Vt., Mr. Franklin
Wooley, a well known storekeeper
of that place, was shot last week by
his younger and only brother, Solon.
There had been ill will between the
two for months, growing out of the
act of the mother, a widow, in trans-
ferring all her little property to So-
lon. Franklin had lost no opportu-
nity to injure and annoy Solon.
Solon had ordered Franklin off his
premises, with a warning not to ven-
ture there again. It was known to
the older brother that Solon had
bought a brace of pistols. On the
day of the shooting Franklin was
driven to Solon's house by an uncle
and aunt, who were benevolently
anxious to reconcile the estranged
brothers. He was reluctant, but al-
lowed himself to be overpersuaded.
Seeing who it was, Solon ran up
stairs. His wife handed him a load-
ed pistol. Appearing at a window
he ordered Frank to leave. The
uncle seeing the pistol cried out to
him not to shoot. He said he knew
what he was about; he had consulted
his lawyer; he had a right to shoot.
Frank told him that he was wrong.
Solon fired. Frank started that he
was shot and a dying man. Solon
coming toward him, pistol in hand,
he ran a few steps toward the road
and then dropped. He was taken
home, where he soon after died. So-
lon has been committed.

An elderly darkey was inquiring
of a policeman if he knew anything
of his son Pete. The policeman re-
plied that there was a darkey in the
lock-up for breaking up a pray-
er-meeting with an axe-handle.
"Dat's him," exclaimed the overjoyed
parent. "He told me he was
gwine to 'muse hisself."

If the Serbian troops don't fight
any better they must expect to re-
main in a state of sub-Serviancy.

All hail the great Reformer—S. J.
Tilden.

envelopes, visiting cards, etc., etc., all kinds
of blanks and Baptist Minutes.

A REVOLVER AS A RAILROAD PASS.

The train on the Pennsylvania
railroad which arrived in Jersey
City at eight o'clock last evening
conveyed from Philadelphia a pas-
senger who created considerable
trouble on the way. When the con-
ductor asked him for his fare, he re-
plied very coolly that he had not
thought about it when he entered
the car. The conductor finding re-
sistance useless, made an at-
tempt to put the refractory passen-
ger off the car, when the obstreperous
individual drew a revolver and
presenting it to the conductor's head
told him with the utmost composure
that that would be his fare to
end of his journey. When the train
arrived in Jersey City the obstinate
individual was surrounded by the
employees who believed they could
place him under arrest. He defied
them all and said he would submit
to arrest only on the production of a
warrant. Strange to say he was al-
lowed by the brave staff to cross in
peace to New York on the ferry-
boat, and is now at large.—N. Y.
Herald.

A RIOT IN SOUTH CAROLINA.

A serious riot broke out in
Charleston about dusk on the 8th
inst. Broad street from the Court
House to the post office was crowd-
ed with blacks and whites all ex-
cited, and the blacks much angered
at the returns unfavorable to the
Republicans. An altercation be-
tween the Democrats and Republi-
cans was followed by a general out-
break of blacks who were largely
superior in numbers to the whites,
and who opened a general fire with
pistols and rifles upon the whites
taking complete possession of the
street for the time. The whites
soon rallied, a sharp firing occurred,
intense excitement reigned through-
out the city for some hours. Two
companies of United States troops
in the city double quickened to the
scene, and dispersed the crowd, and
soon to the charge of the street. Cas-
ualties, one negro mortally and nine
others seriously wounded. One
white was killed and about twelve
wounded.

STOP YOUNG MAN!

"Not another glass! 'Only beer,'
do you say? Beware all that gives
pleasure to your palate in that glass
of beer is alcohol! It is the same
whether in beer, wine or whiskey.
It is the demon that biteth like an
adder, that tickles your palate in the
beer. Do you want proof? Watch
the beer drinker. He wants his
pint for a drink, while the other
only takes his thimbleful of whiskey.
In each case the alcohol is about
equal, in a pint of beer or the ordi-
nary drink of an occasional whiskey
drinker. Bait the beer for a half
hour, then taste the nourishment
left in the cup, and you will find why
you drink beer. Stop your young
men from drinking beer, and we
will soon have a nation of sober
men instead of a nation of drink-
ards. It was the little opening that
increased with frightful rapidity that
caused the Mill River disaster. So
the beginning of the drink curse
frequently 'only beer,' ending in
the fearful wreck of all that makes a
man.

USEFUL SUGGESTIONS.

Always give the soil the first
meal. If this is well fed with man-
ure it will feed all else plants, ani-
mals and man.
If you wish to give an energetic
movement to all our farm machin-
ery, and keep it whirling in rotation,
be sure to be without a good ro-
tation of crops.
If you allow your animals to shiver,
your fortune will be shivered in
consequence; that is, the farmer who
leaves his cattle to the winds, will
find his profits also given to the
winds.

THE ADVERTISER

Largest bona-fide Town and County Circulation of any paper published in the County.

J. B. THOMAS, W. B. TOWNSEND, Editors & Proprietors. F. P. HOWELL, FRIDAY, Nov. 17, 1876.

DARLONESA, GA. Reading matter on every page.

SPEAKERSHIP.

In the Atlanta Commonwealth of a recent date, we notice the names of Messrs. Bacon, Carlton, Candler and Turnbull, as individuals among whom the selection will most probably be made for this arduous, intricate and responsible position. We unreservedly made the concession, that if the mantle should perchance fall upon either of the honorable gentlemen above named, they would wear it with much grace and honor to themselves, no less to their country, but while we concede this much, we beg leave to add another to the calendar, who, in our humble opinion, in point of intellect, will compare most favorably with these gentlemen, and whose experience in Legislative bodies, both in State and Federal, would much more preponderate in his favor. We allude to the Hon. W. P. Price, of Lumpkin county. We do not know that Col. Price aspires to this honorable position, but should it be conferred upon him, we have no hesitation in saying that when he shall have finished his course, the Legislature as well as the country at large, will be ready to exclaim, "Well done thou good and faithful servant."

THE PAST AND FUTURE.

Our friends are doubtless aware of the fact that we have been on tiptoe during the Presidential campaign doing our best to keep them posted, by giving all the latest news up to date, so now we will quit about and march our force into the camps of our local candidates. We will not at present declare ourselves in favor of any one, but reserve the right of so doing in the future, if justice demands it of us. We find all our aspirants at work like bees—each one confident he will be elected. How this will be we can not say, but venture that the voters of Lumpkin will correct all mistakes they make in January next. One thing we do urge upon our people, and that is when they cast their votes let them be for good men—for men who are honest, and in every way competent to fill the office—lay aside all prejudice or malice, if there be any, and centre upon the men they think are best qualified to discharge the duties incumbent upon the different offices.

HAMPTON ELECTED.

We find words inadequate to express our great joy at the grand and glorious termination of the gubernatorial contest in the State of South Carolina.

It was for a long time feared by the people, both in and out of that State, previous to the election, that the Radicals would carry the election by fraud and the point of the bayonet. Not so, the Supreme Ruler of the Universe hath said, "the prayers of the righteous availeth much." Chamberlain's sceptre of transforming power has fallen shivered to the earth from whence it sprang, and instead Wade Hampton, that patriot and statesman, will wield the sceptre of reforming power. Honest government will once more dawn upon the down-trodden State, prosperity will return, honest men rule, and peace and plenty bless the land.

A dispatch from Savannah dated the 13th, says that a dispatch has been received from Gainesville, Fla., to the effect that the ballot box at Archer, in that county, was stuffed with 200 fraudulent votes and is counted in by the canvassers.

London dispatch: The loss of life at Calcutta by the cyclone is estimated at 40,000. Reports from the famine from Bombay are worse. A water famine is feared in the same districts.

It is said that nine-tenths of the Deputy Marshals at Atlanta voted the Democratic ticket.

LATEST!

Louisiana and Florida Democratic!

THE PROXIMATE MAJORITIES.

South Carolina Democratic but Contested.

We had hoped, up to the hour of going to press, that upon the arrival of the mail, we would be enabled to give our readers something definite as regards the election, but we are disappointed. In all probability before our next issue the doubtful States will be heard from officially, and the contest decided, as only one more vote is necessary to place Tilden on top. We, however, give the latest up to this writing:

New York, Nov. 14.—Louisiana and Florida certainly Democratic, but cannot tell for some days how the returning boards will count them.

New York, Nov. 14.—Today's advices but confirm more emphatically a Democratic victory in South Carolina, Florida and Louisiana, and the situation now depends entirely upon whether we can get a honest count and a fair return in all or any one of these States.

Tallahassee, Fla., Nov. 14.—In 7 counties, which contain the bulk of the northern people, Tilden is 208 behind Drew and the State ticket. In the other counties Tilden will run nearly even with the State ticket. In Santa Rosa county, he leads Drew by one vote.

Several contests have already been ordered before the State board of canvassers.

The following is the proximate majority for Tilden and Hayes:

TILDEN.	HAYES.
Alabama 30,000	California 6,000
Arkansas 40,000	Colorado 2,000
Connecticut 3,000	Illinois 6,000
Delaware 3,500	Iowa 40,000
Georgia 81,000	Kansas 10,000
Kentucky 75,000	Massachusetts 10,000
Maryland 18,000	Michigan 15,000
Mississippi 20,000	Minnesota 10,000
Missouri 50,000	Nebraska 5,000
New Jersey 5,000	Nevada 2,000
Tennessee 50,000	Ohio 4,000
Texas 70,000	Oregon 1,000
Virginia 35,000	Pennsylvania 15,000
W. Virginia 17,000	Rhode Is. 6,000
New York 81,000	Wisconsin 3,000
Indiana 8,000	Maine 2,000
N. Carolina 15,000	Vermont 10,000
Louisiana 8,000	N. H. 4,000
Florida 1,000	
S. Carolina 1,000	

Total	562,500	Total	138,000
Tilden's majority		Hayes's majority	562,500
Hayes's majority		Tilden's majority	138,000

HOT TIMES IN SOUTH CAROLINA AND FLORIDA.

The Radicals have been trying to carry these two States by fraud and force. They sent troops from every quarter. The State Board of Canvassers for this party are formed of negroes and whites closely allied by party ties, trying in their thieving way of doing business, to outcount Uncle Samuel, but ah, he is too sharp for them, he has shewed but honest men posted to see the vote counted and the returns made out according to Hoyle. If let alone no doubt these ballot-stuffers, both black and white, contrary to the will of the people would give Mr. Hayes's name little majority. These States have suffered for years by the inhuman acts of this low set of plundering thieves, but now they speak their sentiments to the world—Tilden, Wade Hampton and Reform!

Georgia has not turned a deaf ear to their appeals. She has sent Gordon, Young and Brown, three of her noblest sons, swiftly whirling over the iron rail to assist in redeeming them from the thralldom of Radicalism. These are veterans, true and tried, and will stand as the point of the enemies' glittering bayonet, and can find supporters to-day in North and South Georgia who are ready and willing to stand by them until the last shadow of these thieves are put out of power.

Gov. Smith has ordered the Tax Collector to suspend the collection of the State tax in Brunswick, for 1876, in consequence of the suffering condition of the people of that stricken city.

IMPORTANT RESOLUTIONS UNANIMOUSLY ADOPTED BY THE NATIONAL AGRICULTURAL CONGRESS.

Through the kindness of Mr. Horace J. Smith, of Philadelphia, Secretary of the National Agricultural Congress, we have the pleasure of laying before our readers the resolutions introduced by our fellow-townsmen, Rev. A. Martin, Esq., in the Congress at its fifth annual meeting, on the Centennial grounds in Philadelphia. The resolutions were heartily and cordially approved, warmly advocated in discussion, and after a rigid examination by the Committee on Resolutions were unanimously adopted by the Congress.

They certainly meet with our approval, and we know that the farmers throughout the Union will also endorse them. That the prosperity of our country depends chiefly upon the agricultural interests is, in our opinion, unquestionable. If it is the basis of our prosperity, why not be as fully represented in the council of the nation as any other Department? The next thing to be accomplished is to get Congress to create this farmer's office, and we know of no better plan than that suggested by Mr. Martin in the third resolution, and recommended by the Agricultural Congress. Let every agricultural club and society, both county and State, petition the U. S. Congress to create the office so much needed and desired, Congress cannot well resist the appeal if every agricultural society throughout the Union will act in accordance with the resolution. We congratulate the farmers in having a representative so mindful and thoughtful of their interests as Mr. Martin.

We would like to see what our big agricultural papers and periodicals have to say about these resolutions. In a conversation with the author of the resolutions he informed us that he had then already written to introduce in our State Agricultural Convention at its August meeting in Gainesville, but he was unavoidably prevented from attending that meeting, and when he received his credentials as a delegate from the State Convention to the National Agricultural Congress, he concluded to carry them to Philadelphia, and was very much gratified at their reception in that body.

At the Fifth Annual Session of the National Agricultural Congress the following resolutions offered by Beverly A. Martin, of Georgia, were unanimously adopted Sept. 14, 1876: Resolved, That it is the opinion of the National Agricultural Congress, that the agricultural interest of the country is one of, if not the most, important in the Union; and should receive the fostering care and protection of the Government.

Resolved, That we urge upon Congress the justice and the wisdom of creating a position in the Cabinet upon an equal footing as to rights, privileges, &c., to be called the "Secretary of Agriculture," whereby the interests of agriculturists may be fully represented and consulted, as well as the Moral, War, Naval and other interests less important than agriculture.

Resolved, That we suggest to the State and county agricultural societies throughout the Union, that they petition Congress to this effect, to-wit: That the agricultural interests be represented in the National Cabinet, and by a successful farmer.

Resolved, That the Secretary be instructed to forward a copy of these resolutions to the President of the United States Senate and the Speaker of the United States House of Representatives, with the request to lay them before the bodies over which they preside.

The Constitution says the White House at Washington should at once be renovated, the walls whitewashed and chloride sprinkled on the floors, because Uncle Sam is a bachelor, and he cannot abide a stench.

It is estimated that there are now in operation in the United States no less than 800 paper mills, which are valued at \$40,000,000 of capital invested, with a total production of \$70,000,000. These mills give employment nominally to 20,000 people, whose earnings are footed up at \$10,000,000 annually.

PAY OF THE DEPUTY MARSHALS.

In commenting upon the pay, etc., of the late army of Deputy Marshals appointed by Major Smythe, the Atlanta Constitution says that "Major Smythe has paid off and discharged his improvised battalion. Other marshals have doubtless acted in a similar manner. But this is not the last outrage and swindle that the administration has just been guilty of, for the whole subject will of necessity come up at the next session of Congress.

The Committee on the Expenses of the Department of Justice—of which Mr. Candler is a member—succeeded in cutting down the annual appropriation for the judiciary to two and a half millions. Last year it was three millions, and the year before, we believe, three millions two hundred thousand dollars. Out of the diminished appropriation for the fees of jurors, witnesses and marshals all over the country, and all other court expenses, the sum was considered insufficient by the administration to meet the ordinary expenses of the courts. No allowance was made for expenses at the polls in the shape of an army of deputy marshals. Those marshals have however been paid, and the inevitable result will be a "deficiency" bill from the department of justice. When it is presented we demand, in the name of an insulted people, that the whole deputy marshal matter be laid bare—its needlessness, its unconstitutionality, its effects on civil liberty, and its cost to a cent. Let the country know what the administration attempted. Let tax payers see how the administration used their money in an attempt to perpetuate its power. The whole story of that attempt should be laid before the country in a document of an official character.

TILDEN AND THE REVENUE LAW.

Now that Tilden has been elected we may reasonably expect a change for the better. When we meet our friends at home or abroad we can converse together as a free people not bound as in chains under Radical rule to submit to every set smuggled into existence by this so-called Republican party. Thank God the time will soon come when liberty will be ours, and the gentle hand of prosperity beckon us on, when the tyrants voice will be hushed throughout our sunny land, our good citizens no longer dragged from their homes and firesides, their labor left undone, and families to suffer, carried to our State Capitol, there cast within the dark gloomy walls of a prison with not one ray of glimmering hope to give them cheer; placed in this "hell on earth" by these Radical Revenue rats, called Commissioners, of this department.

In not this enough to make us rejoice over Samuel J. Tilden's election, to know that we are redeemed, and that these rats are soon to pocket the last cent of their ill-gotten gains and retire (we hope) to some remote corner of the earth, where only the black African is found; there let them remain and spend their time and the money they have robbed our citizens of, among their own class, for we know the President elect, will never employ them under his new administration, and we don't believe the people of Lumpkin and surrounding country will ever shed a tear of sorrow when they depart, but give three rousing cheers, and bid them hasten quickly away, never to return again.

Since honest men have won the day, Thieves and scoundrels will run away.

BIE, BIE.

It is not time, President Grant, and the Republicans generally, were passing in their checks? We think so, and will anxiously look for the appearance of their valise, which will surely come ere long. Tilden no doubt feels deeply for Grant, Babcock & Co. already, but will feel deeper when he gets to reforming Governmental affairs, and stumbles upon some of their monstrous Radical frauds, and his search will doubtless be aided by the iron hand of an outraged law. Well may the Republican party make a desperate fight to carry the election, for when Tilden takes his seat in the Presidential chair, it will seal the doom of Radicalism forever.

MASON & HAMLIN CABINET ORGANS

Have been unanimously assigned the "FIRST RANK" in the several "Requisites" of such instruments, at the U. S. CENTENNIAL, 1876.

Of such instruments, at the U. S. CENTENNIAL, 1876, and are the only organs assigned this rank. Their superiority is thus declared, not in one or two particulars only, but in all the important qualities of an organ. A Medal and Diploma have also been awarded them, but medals of equal value were awarded all articles deemed worthy of recognition, so that many makers can advertise "first medal" or "highest award." Comparative rank in excellence has been determined by the Judges' Reports alone, in which the MASON & HAMLIN ORGANS are unanimously assigned "the FIRST RANK" in the several "Requisites" of such instruments, and are the only organs assigned this rank. See Judges' Reports, which result have been published, for these organs have uniformly taken highest awards in such competitions, there being less than an exception in hundreds of comparisons. They were awarded first medals, and highest honors at Paris 1867, Vienna 1873, Santiago, 1875, Philadelphia 1876; having thus been awarded highest honors at Every World's Exhibition at which they have participated and being the only American organs which have obtained any award in Europe.

NEW STYLES, with improvements exhibition at the CENTENNIAL, elegant new cases, great variety—Prices very lowest consistent with best material and workmanship. Organs sold for cash or installments, or rented with rent paid. Every organ warranted to give entire satisfaction to every reasonable purchaser or the money refunded. Illustrated catalogue sent free. MASON & HAMLIN ORGAN CO., 124 Tremont Street, Boston 25 Union Square, New York 30 and 32 Adams St., Chicago 207 17

HAVE YOU TRIED SIDDALL'S MAGNETIC SOAP?

No Rough Hands! No Yellow Clothes! No Wash Boiler! No Steam in the House!

Guaranteed under \$50 penalty not to injure clothes, and superior for toilet and shaving. Sold as a family and package will be sent, express charges pre-paid. One reliable dealer wanted at every prominent point as agent, with whom a liberal management will be made. Address, F. H. SIDDALL, oct17-7t 106 Market St., Phila.

VISSCHER & HALL'S Concentrated Potash.

Warranted equal to any Potash in the market, and superior to Concentrated Lye for all purposes for which it is used.

Put up in one pound metal cans, convenient for use in families for making lard and soft soaps, and for cleaning purposes generally. Directions for making soap, etc., accompany each can. For cleaning type, presses, machinery, paint, scumming water, washing stoves and fruit trees in the spring, it is unequalled for excellence and convenience of packs. For sale by grocers and druggists everywhere.

Viesscher & Hall's Insecticide and Disinfectant Powder is invaluable for the destruction of the potato bug, cotton worm, grasshoppers, mites, rats, roaches, insects, and vermin of all kinds. It is harmless to men and animals, and far cheaper than Paris green for the destruction of vermin. It is also invaluable in disinfecting, purifying the air in hospitals and sick rooms, and destroying the foul odors of stables, cellars, etc. Put up in one pound cans. For sale by druggists and grocers everywhere.

VISSCHER & HALL, Manufacturers, 96 Wall Street, New York, oct 7-0t

THE GEORGIA DAILY COMMONWEALTH

Published every evening (except Sun. & day) by the Commonwealth Publishing Co., Atlanta, Ga., and is edited by Col. Carey W. Styles, late of the Albany News, with efficient assistance. The Commonwealth gives the current news of the city, State, and elsewhere, condensed reports, and vigorous editorials on local, national, and international subjects. The coming campaign, State and National, will be closely watched and promptly presented, while the Mechanical and Agricultural interests of the State will not be neglected. It has a large and rapidly increasing circulation.

TERMS: One month, \$2.00. Three months \$5.00. Six months \$9.00. One year \$16.00. Printing, binding and ruling of every kind, in the latest style and at the lowest prices by the Commonwealth Publishing Company, Atlanta, Ga.

Wholesale Grocers, 32 AND 34 NORTH BROAD STREET, Atlanta, Geo.

Local News.

Tilden and Reform!

Raw and chilly these mornings.

Porter Spring presents quite a dull appearance.

Our list of subscribers is increasing every day.

"Farewell, a long farewell, to all my greatness!"—Grant.

A large supply of warranty deeds kept constantly on hand at this office.

There are thirteen students from Atlanta, going to school at this place.

We publish elsewhere announcements for Mayor and Town Councilmen.

Capt. Woodward has about completed his new building in the rear of his dwelling house.

Apples are very dull at forty cents per bushel in this market, while in Atlanta they are only \$2.00 and \$2.50 per barrel.

Mr. J. B. Gaston, who has been very ill in Gainesville, we are glad to see, has made his appearance in our town, and has almost recovered.

Mr. H. D. Ingerson, who is mining in White county, has recently struck a very rich vein on his property, making the fourth one that has been discovered on it.

We learn that the work of repairing the dam at Wimp's mill will commence next Monday, and the mill will probably not run no more in about a month.

We see from a notice posted up that the Tax Collector will visit this place to-day, to-morrow and Monday, for the purpose of receiving tax, after which he will close his books.

A canal seventeen miles long, has been cut to convey water to the Nacoochee mine, in White county, which enables the miners to use the hydraulic process on 10,000 acres of rich mining property.

Up to this writing the past few days have been remarkably mild and pleasant, considering the advanced state of the season. We may expect a regular old Norwegian cold snap though, when it does let in.

We are informed by our country friends that the mass this year is not very plentiful. The cholera has been making such fearful ravages among the hogs of this section, we hardly think that the supply of pork will be very large, either.

We greeted with pleasure the appearance upon our exchange table *The Students Herald* for November. It comes to us greatly improved in its typographical appearance, and its columns brimful of the choicest reading matter.

We note with pleasure, the presence in our town of Rev. W. J. Wootton and lady, of Norcross. They are the guests of Rev. J. W. Hutchins. We learn that they are in attendance upon the protracted services held by the Young Men's Christian Association of this place.

There is an interesting series of meetings going on at the Methodist Church at this place under the auspices of the Young Men's Christian Association, and we devoutly hope that great good will result from these services before the week of prayer ends.

Johnnie Wheelchel, accompanied by his dog, was out hauling wood some miles from town last week. His attention was attracted by the furious barking of the animal, and upon making his way to the spot, he found entangled in a brush heap a wild turkey, which he succeeded in capturing and bringing to town.

Mr. Lorenzo Davis succeeded in capturing on Saturday morning last, four monster coons and a large possum. We were also, informed by a gentleman who accompanied Mr. Davis, that the hounds treed another one in the hollow of an oak, which was so large that every time the varmint breathed the tree cracked. We will not vouch for the truth of the latter statement.

We noticed some watermelons in town on Wednesday last.

The North Georgia Conference will convene at Sparta, December 6th. Bishop Pierce presiding.

Elsewhere will be found the announcement of Charles Leary for the office of Justice of the Peace of this District. Mr. Leary has made many warm friends since his sojourn among us, and is in every way capable of filling the office.

We are reliably informed of the tragic death of a prominent citizen of Morganton, Fannin county, Ga. We did not learn the particulars of the sad affair, and are only able to state that he was married on Thursday and on the Monday following he accidentally killed himself.

Very few chickens have been brought to this market this season. Our farmers who pay any attention to poultry raising—which is a very lucrative as well as important branch of industry—should be up and doing, as chickens command a very fair price in the Atlanta market just now. There is money in this business if properly conducted.

Next Sabbath ends the pastoral year of the Rev. J. D. Hammond at this place. The cause of religion has had an earnest and faithful worker in the person of our beloved pastor, Mr. Hammond, who has made many warm and dear friends, both in and out of the church, during his stay among us, and we sincerely trust, although it is not very probable, that he will be re-appointed to this place.

The new grin which we believe the most of our candidates have caught the hang of, and which becomes them so remarkably well, no doubt will gain for them several votes, as they have such a cute way of getting around a fellow by shaking hands and inquiring after the old woman and all the children, but be careful it don't turn to what Hayes and Wheeler are now afflicted with—the Centennial grin of disappointment.

Work has been commenced at the old Stephenson shaft, near the Findley, which opened out with right good results. This mine, although very rich, has been lying idle for some time, it having been successfully worked some years, and from the present showing up, will doubtless prove as rich at this late day as in former years. We have many just such mines situated almost in a stone's throw of Dahlonega equally as rich, that will be opened out and successfully operated at no distant day.

Mr. Coleman Ash, of this county, raised this year, on one fourth of an acre of ground seventy-five bushels of sweet potatoes, and still some of our people will persist in crying hard times. Well, it may be some what squally with a certain class who sit with their hands folded waiting for something to turn up, but it is not so with the honest, industrious farmer, who goes to work, cultivates his lands, sows his seeds, and reaps a rich and bountiful harvest as the fruits of his labor. "By the sweat of the brow shall ye eat bread all the days of your life."

A post office is badly needed at Porter Spring, in this county. It is a thickly populated settlement, and is at least nine miles from any established post office. Persons living in that vicinity are compelled to travel this distance in order to receive or send off their mail. We are informed that a regular mail route was established from this place to Blairsville via Porter Spring, while Congress was in session, but unfortunately because it did not exactly suit the views of H. P. Farrow, who had leased Porter Spring property, and who, by the way, is a favorite poodle of the present dominant, but dying party, he done away with the line. Well, never mind, Uncle Sam will send us a sure enough little post office from Washington, with a real genuine Democratic postmaster, labeled for Porter Spring. Won't that be nice? Bye, bye, Far-o.

The Centennial closed on the 10th.

TILDEN!

Grand Torch-Light Procession.

SPEECHES BY PROMINENT CITIZENS AND STUDENTS OF THE N. G. A. COLLEGE.

The great tidal wave of rejoicing that is sweeping over our land from the rivers to the ends of the earth, at the election of S. J. Tilden, was caught up as it were, by our patriotic citizens on Tuesday evening last. The public square was made the scene of one grand illumination, by a hundred different torch lights born aloft by the hands of an enthusiastic people, in honor of the greatest reformer America ever produced.

After the preliminary arrangements had been made, the speaking commenced in front of the Court House. In response to loud and repeated calls by the enthusiastic assembly.

COIL WITH BOLD

came forward and regaled them with one of his happiest efforts, congratulating the people upon their recent grand victory, and the dismemberment of the Government from the thrall of a rotten and corrupt party—a people re-united and a Government saved. After touching upon several other points of minor importance, he yielded the stand amid deafening applause to other speakers. The Colonel was immediately followed by a

NUMBER OF STUDENTS of the N. G. A. College. Each of the young gentlemen proved themselves to be fine orators and true Americans. The slumbering spark of patriotism which their predecessor had stirred in the breasts of the listening multitude, was soon formed into a flame by the earnest, patriotic and eloquent addresses delivered by Georgia's heroic young sons.

At the close of the speaking, the excitement and enthusiasm was at such a height, that cheer after cheer rent the air. Many 100s were present, and their presence lent additional spirit to the occasion. Lift up thy sweet voices, sad-eyed daughters of desolation, and wave thy white, patient hands in token of thy delight at the dismemberment of thy section, for the hour of rejoicing is at hand.

FIRE WORKS

was next in order, and after amusing themselves by tossing fire balls, building bonfires, &c., the crowd dispersed, to seek rest and repose from the fatigue of the day's rejoicing.

"Frequent complaints have been made to us by subscribers not receiving the *Signal* regularly. We regret that such is the case, and wish that we could devise some means of sending the paper always safe to hand, but the fault is not ours. We always mail the paper promptly and if they are not received it must be owing to the carelessness of post masters or employees of the post office department."—*Signal*.

In justice to our very efficient post master and employees in the post office department at this place, we will only say that it is simply amazing with what cool impudence the proprietor of the *Signal* charges the unsuspecting post office officials with the irregularities of that paper. It is hardly reasonable to suppose that a postmaster could be held accountable for the prompt delivery weekly of a certain article not entrusted to his care more than once in two weeks. They say in the above paragraph that they would be glad to "devise some means of sending the paper always safe to hand," this they can easily do by simply getting their paper out on time every week—which is seldom the case—and we can give them this assurance, that the post office officials will faithfully perform their part. It strikes us that this throw-off is a little too weak, and it will take Eddie's combined legion of "Mutton Sammys" together with a whole cargo of Coffee, to make it strong enough to "take." Ta, ta.

The erection of a large United States building will be commenced in Atlanta shortly. It will take three hundred car loads of rock to build the foundation.

Two companies of federal soldiers left Atlanta last Friday for Florida.

It is with feelings of deep sorrow that we chronicle the death of that aged and christian lady, Mrs. Mary Adair, who lived some two miles from town. She was about seventy years of age, and we learned a devout member of the Methodist Church a larger portion of that time. Mrs. Adair has been an invalid for some past, up to a short time ago, when she was attacked with something resembling a paralytic stroke, and never uttered a word from the time she was stricken—which was about a week until death came to her relief. She leaves a large circle of relatives and friends to mourn her loss.

Rev. Mr. Hammond preached for her funeral at Jones' Chapel on last Sabbath at 11 o'clock.

Marriages.

ASH—WALKER.—Mr. C. W. Ash to Miss R. Walker, by Justice Moore, in this county, 9th inst.

Deaths.

ADAIR.—Mrs. Adair in this county, Saturday last.

HAMMOND.—Mrs. — Hampton, in this county, Wednesday night last.

CUT THIS OUT.

It May Save Your Life. There is no person living but what suffers more or less with Lung Diseases, Coughs, Colds or Consumption, yet some could the residue that would cure them. Dr. A. BARNES' GREAT REMEDY has lately been introduced into this country from Germany, and it is wonderful. If you doubt what we say in print, cut this out and take it to your druggist, J. W. & W. A. BURNSIDE, and get a sample bottle for ten cents and try it. Two doses will relieve you. Bottle size 75 cents. oct. 14 ly

Municipal Election:

Taxes, Salaries and All Other Expenses Reduced!

Editors Advertiser: The following ticket you will please announce and oblige, "Many Voters." This body has been tried and found not wanting:

FOR MAYOR: A. J. REISE.
FOR COUNCILMEN: DR. B. F. CHAPMAN, STEPHEN RICE, P. M. SUTTON, J. W. WOODWARD.

Editors Advertiser: Please announce the following ticket for Town Councilmen:

FOR MAYOR: JOHN C. BRITTAIN.
FOR COUNCILMEN: H. D. GURLEY, A. J. REISE, E. H. BECK, J. B. THOMAS.

ANNOUNCEMENTS.

FOR CLERK SUPERIOR COURT.

We are authorized to announce the name of Mr. J. P. PARKER, the present Clerk of the Superior Court, as a candidate for re-election at the ensuing election in January next.

At the earnest solicitation of many voters, W. J. WOODLEY, former Clerk, announces himself as a candidate for the office of Clerk Superior Court of Lumpkin county at the ensuing election in January.

FOR TAX COLLECTOR & RECEIVER.

We are authorized to announce the name of BENJ. F. SATTERFIELD as a candidate for Tax Receiver and Collector of Lumpkin County at the approaching election in January next.

We are authorized to announce the name of J. K. BEARDEN as a candidate for Tax Receiver and Collector, of Lumpkin county, at the approaching election in January next.

We are authorized to announce the name of W. H. WOODY, as a candidate for the office of Sheriff of Lumpkin county, at the approaching election in January next.

FOR SHERIFF.

We are authorized to announce the name of A. W. WOODY, as a candidate for the office of Sheriff of Lumpkin county, at the approaching election in January next.

We are authorized to announce the name of W. H. SATTERFIELD as a candidate for re-election to the office of Sheriff at the ensuing election in January.

We are authorized to announce the name of JOHN C. BRITTAIN, of Augusta, as a candidate for Sheriff at the ensuing election in January next.

We are authorized to announce the name of JOHN C. EARLY, as a candidate for the office of Sheriff of Lumpkin county, at the approaching election in January next.

FOR JUSTICE OF THE PEACE.

We are authorized to announce the name of CHARLES LEAROV as a candidate for the office of Justice of the Peace of the Sixth District, G. M., at the ensuing election in January.

WHY WILL YOU PINE AWAY?

WITHOUT A PARALEL.—The demand for Dr. J. Bradfield's Female Regulator is becoming precedent in the annals of popular Remedies. Orders come in so thick and fast that the Proprietor has, heretofore been unable to fill them all. He is happy to state that arrangements are now made to state that arrangements are now made to the emergency, and the public may feel assured that their wants may now be supplied. Physicians of high repute are using this great remedy, in daily practice, all over Georgia. Hereafter no woman need suffer from suppressed, suspended or irregular menstruation. This valuable medicine is prepared by L. H. Bradfield, Drug get Atlanta, Ga., and sold at \$1.50 per bottle by respectable druggists throughout America.

Docty, Blooming Widow.

MARIETTA, GA., March 9, 1870. Messrs. Bradfield & Co.—Gentlemen:—You will please ship an another supply of your invaluable Female Regulator and forward bill by mail. We are happy to state that this remedy gives better satisfaction than any other article we sell. We have been selling it since 1868, and witnessed many remarkable cures by it. Among others, there was a lady friend of ours who was a widow and sickly until she was twenty-six years old, when she was married. Her husband lived two years and died. She continued in bad health; in fact, she has never been what a woman ought to be. A few months after the death of her husband, she saw your advertisement, and came to our store and bought a bottle of your Regulator from us, and took it according to directions. This cured her soul and well, brought her regular monthly periods on, and today she is a hearty, blooming widow—will the use of but two bottles of your Regulator, costing her only \$3.00, when she had tried several physicians and spent a great deal of money without any benefit. Wishing you great success with your valuable remedies. We are respectfully yours, etc., Nov 17 W. ROOT & SONS.

Agreeable to an act of the Legislature incorporating the town of Dahlonega, there is an election held on the first Saturday in December next, within the legal hours of the day, for the election of an Intra-urban, four Councilmen.

A. J. REISE, Intendant Protem. P. M. SUTTON, Clerk of Council.

nov 10 W. H. SATTERFIELD, Sh. 7.

ONE WAY TO BE MISERABLE.

If you want to be miserable—think constantly about yourself, your woes and your care—your trials and your tribulations; pity yourself for the troubles you must bear and the evil that afflict you. Magnify every ill, see no comfort or blessing in the path of life stern duty has planted your feet in; and if you want to make your friends miserable too, keep your sad fate ever before them and forget that they may have bitter trials of their own, and insist upon entertaining them with a recital of your peculiar troubles, and seek for their constant sympathy and condolence. You will accomplish your amiable purpose by this course, but before long you will find yourself your only sympathizer, for your friends will vote you an unmitigated bore, and seek more congenial society, and avoid yours like the pestilence.

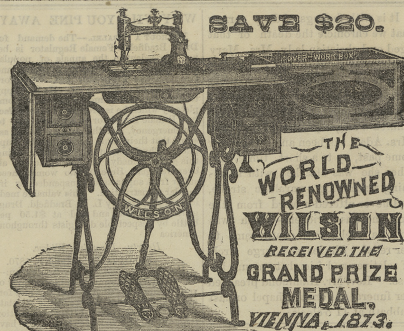

The phenomenon of flesh, says an exchange, falling from a cloudless sky, occurred in Gaston county, N. C., last Saturday afternoon. The shower, if such we may term it, fell in a cotton field belonging to James Hamann, who lives near Gastonia. The flesh—for such it certainly is—fell for several minutes, descending somewhat in the manner of hail-stones falling, and sprinkled a space of ground equal to a square rod. Mr. Hamann saw the shower as it fell, says it was perfectly clear at the time, and that there was nothing unusual visible in the sky at the place of the singular occurrence. Mr. R. Frank Clark, of this place, returned from Gaston county last Monday, and brought a specimen of the flesh with him. A microscopic examination indicates that it resembles the flesh of a cow, and a gentleman in town, who had the temerity to taste it, says the taste is similar to that of beef.

A stock actor, who was called upon to make a short country tour during the dull season, was recently interviewed in a small mountain town by the editor of the local newspaper. The editor asked for some particulars regarding his career, which he gave as follows: "I am forty-one years of age, and been on the stage since I was sixteen. In the course of my profession I have been married over 4,000 times, occasionally 200 nights in succession. I have jumped over hundreds of precipices, been married on an average four times a week, fought 1,200 duels, been also an Australian bushwhacker and a Methodist minister. I usually drink out of golden goblets—that is, when I am a king—but regal honors suit me so ill that I prefer a bludgeon to a sceptre, and a thieves' den to a palace. In private life I am as affable as an auctioneer, and, as you insist on it, I'll take another cock-tail with a little less lemon in it."

Passengers on the Valley Railroad, says the New Haven Register, are attracted daily by the conduct of a large and intelligent dog waiting by the roadside for the daily news paper, which was formerly thrown to him from the baggage car, for his master, who lived half a mile from the road. The master has been dead for many months, but the faithful dog has not missed the mails train a day since. There is no paper for that master now, but some times the baggage-man, in pity for the dog, tosses a paper to him as the train rushes by, which he eagerly seizes and starts joyfully over the hills for his home. When the train has gone by and no paper is thrown, he rushes wildly up and down the track, gazing after the cars with an almost human look of disappointment, and jogs dejectedly home, wad.

A delightful rumor prevails that Gov. Tilden will install a bride as mistress of the White House. Though he will yield late to the dictates of sentiment, we doubt not that our Reform Governor will choose wisely and gain new zeal in the work the people know he is capable of performing.

On Monday a man named Stephen Cooper, a mountaineer, in eastern Dutchess county, New York, got into an altercation with his son and shot in the groin. Death ensued and the body was buried. There was no inquest, nor has the murderer been arrested.

WARRANTED FIVE YEARS!

It requires no instructions to run it. It can not get out of order. It will do every class and kind of work. It will sew from Tissue Paper to Harness Leather. It is far in advance of other Sewing Machines in the magnitude of its superior improvements, as a Steam Car excels in achievements the old-fashioned Stage Coach.

White Sewing Machine Co., 358 Euclid Avenue, CLEVELAND, O.

AGENTS WANTED. GEO. J. HOWARD, DRUGGIST,

AND DEALER IN PATENTS, OILS, WINDOW GLASS, FINE WINES AND LIQUORS, FOR MEDICAL USE, &c.

Also Proprietor of the following popular remedies:

PONCE DE LEON BITTERS.

A pleasant remedy for indigestion and other diseases arising from a disordered condition of the stomach, and of decided advantage to persons recovering from any debilitating sickness.

ESSENCE OF JAMAICA GINGER.

A pure and concentrated essence of Jamaica Ginger, and for sick headache, colic, nervous debility, cholera morbus, &c., is an invaluable remedy.

EUREKA NERVE AND BONE LINIMENT.

A sovereign remedy for bruises, sprains, cramps, stings of insect, stiffness of the joints, neuralgia, etc. While I do not claim that it will cure old chronic cases of rheumatism, I do say that it will give decided relief, and I have information of perfect cures, having been made by the use of it.

HOWARD'S WORM CONFECTIONS.

A pleasant, safe and effectual remedy for worms—the confections not having any unpleasant taste. Children are fond of them.

HOWARD'S IMPROVED CONDITION POWDERS.

For horses cattle and hogs. Horses low in flesh, hide bound, and in bad health generally, will be largely benefited by the use of these powders. Given to hogs occasionally they will keep in good health and not be liable to cholera.

HOWARD'S CHICKEN POWDERS.

A certain prevention (and cure if used in time) of gapes, cholera and other diseases of chickens, turkeys, &c.

The above remedies for sale by country merchants generally. G. J. Howard, Wholesale and Retail Druggist, 47 Peachtree St. ATLANTA, GEORGIA. July 1

THE LIGHT-RUNNING

"Old Reliable"

HOWE SEWING MACHINE!

POINTS OF SUPERIORITY.

Simplicity and Perfection of Mechanism.

Range of Work—Without Parallel.

Ease of Operation and Management.

Adjustable Head, &c., &c., &c.

PERFECT OF STITCH AND TENSION.

Self-adjusting Take-up.

IN RANGE OF WORK THIS MACHINE CANNOT BE EQUALED. WILL WORK equally well on thick or thin goods, from gauze to heaviest heavy coatings, or even leather, without change of needle, tension or thread. We will warrant them to do this! Our fine work is equal to any, and our heavy work excels that of any other machine in the world. The Machine makes

THE CELEBRATED LOCK-STITCH,

(the stitch invented by Mr. Howe,) alike on both sides. The tensions are positive for both upper and lower thread. The shuttle tension is upon the thread as it leaves the shuttle, and not upon the bobbin as in most machines, and this tension is invariable, whether the bobbin be full or nearly empty. It is obtained by turning a screw in the shuttle, and can be changed in a moment, without taking out the work, breaking the thread or threading through holes. What we claim, in substance, is that this is an

HONEST MACHINE,

And if put in your family will do any and all of your work perfectly, will last a lifetime, is a willing and ready servant, and is not subject to RITS. Persons who have tried all machines are unanimous in declaring this to be the easiest learned of any in the market. In the majority of cases our customers learn from the instruction book without further aid.

EVERY MACHINE WARRANTED!

If you are thinking of buying, and are prejudiced in favor of any particular machine, at least examine the "HOWE" before you purchase.

AGENTS WANTED! THE HOWE MACHINE COMPANY.

A. M. B. GRAHAM, Manager, cor. Broad and Alabama streets, Atlanta, Georgia.

ADVERTISING RATES:

Transient advertisements, (1 inch) \$1.00 per square first insertion, and fifty cents for each subsequent insertion.	
For longer period than one month, as follows:	
1 square 2 months.....\$ 4.50	
1 " 3 ".....6.00	
1 " 4 ".....7.50	
1 " 5 ".....9.00	
1 " 6 ".....10.50	
1 " 7 ".....12.00	
1 " 8 ".....13.50	
1 " 9 ".....15.00	
1 " 10 ".....16.50	
1 " 11 ".....18.00

MISCELLANEOUS.

PANIC UNDER A CHURCH.

At the First Methodist Episcopal Church last night the school-room below was literally packed by children and their friends, enjoying the entertainment, and all went merry until the presentation of the tableau, "Lifting the Veil," the most beautiful of the whole series. The dozen infantile forms, male and female, were costumed in rich and appropriate apparel, and in grouping and pose formed as beautiful a picture as the eye might wish to dwell upon. Enthusiasm was the cheering, and the curtain was again drawn to give another view of the fairy-like spectacle; but in the excitement of the moment the young man holding the candle light allowed some of the burning liquid to fall into a box containing the inflammable preparation used in producing colored lights. This box had been imprudently left at the corner of the stage, against the curtains, and in a moment its contents were ignited, and soon the flames caught the curtains and leaped upward to the ceiling.

And then commenced a scene as wild and as reckless as it was disgraceful to many persons present. Stalwart men left their seats and rushed pell-mell towards the door, clambering over seats and thrusting little children out of their path or bearing them down before them. One big, covetly fellow especially made himself conspicuous. Children cried, mothers shrieked and men heeded neither in their hurry to get out. The wildest confusion and excitement threatened to terminate in a horrible tragedy, but fortunately the Chief of the Fire Department, R. O. Strong, persuaded the people to be seated, and, making for the stage, was assisted by the pastor and others in smothering the flames, which at one time threatened to get the mastery. It is needless to say that this unlooked-for illumination terminated the performance. One excited woman after escaping, rushed to the parlor windows and smashed them in, cutting her hands freely in the act.—*Exchange.*

THE END OF A DIAMOND WEDDING.

Some years ago there was a diamond wedding in a brown stone mansion close to Fifth avenue. It was in all respects a *recherche* affair; the gifts were magnificent and costly and the young couple started prosperously on the voyage of life. After a couple of seasons in Europe the young wife was taken sick, and died in her mother's house in this city. Among the original presents was a costly array of solid silver, duly marked with the bride's initials. This silver was valued at over \$5,000. It was handsomely insured, and for convenience sake, after the woman's death, was placed in a common packing trunk and stored in the vaults of a safe deposit company. The sequel to this story happened on Monday last, when the husband, now bankrupt, pledged the whole of the silver to a professional money lender for a paltry \$500. Those who know him freely predict that he will let the whole of it go when his obligation matures, and that he will be unable to pay the amount of the loan. A similar scheme was reported last year to a stylish wedding in Grace Church only twenty months before. The presents and jewels of the wedding were sold for a mere pittance to buy bread and butter, and to-day the pictures are penniless. In the other case, first mentioned, there is not a shadow of doubt that the silver thus pledged will be sacrificed in a like manner.

The Medical Society of Savannah has declared the yellow fever at an end in that city, and notify absentees that it is safe to return.
Old John Robinson is labeled for Covington, Ga., on the 30th inst.

THE RECENT GREAT STORM.

A letter from Key West, giving the experience of the United States steamer Ossipee in the storm of the nineteenth and twentieth of October says: The men, in getting about the decks to attend to their duties, were thrown violently from their feet, and, blinded by the salt spray, were obliged to go groping about as if they were in total darkness. They could only stick to their stations by the most desperate struggling against the latches, gratings, doors, deck buckets, and many other articles that were being swept back and forth across the decks by the rushing of the water and the ship rolled and tossed. Breathing was difficult, and the air taken into the lungs was so loaded with sea salt that it caused excessive irritation, producing violent coughing and vomiting. The sufferings of the men were intense, especially among the firemen and coal-heavers, who were not only deprived of ventilation, but obliged to inhale the salt-water steam produced by the sea's rushing into the fire room. It was their thought advisable to encourage the men by the use of stimulants, and the surgeon ordered a sufficient quantity to be given to all hands and added to the cabin to be distributed. The effect of the animals on board was peculiar. The cats disappeared the morning before the storm, and were not seen for five days afterward. The dog Daniel, a splendid pointer owned by the captain, exhibited the greatest dread at being left alone, and was only appeased when some one was patting him. The hens and turkeys, usually the most hungry and voracious and quarrelsome on board, forgot hunger, and barely opened their eyes when food was thrown to them. Two birds—larks, a species of pelican—came on board while we were lying in the vortex. They must have been driven down while attempting to fly over us. The parrot was the only thing which at all seemed to enjoy the surroundings.

A DISASTROUS COON HUNT.

The Midway (Ky.) Sun says: We learn that several negroes started out to hunt coons, near Harroburg, in Mercer county, one night last week. A quarrel arose between two of the negroes in the woods, when one was shot dead. His friends remained and took charge of the body, while the rest of the crowd proceeded with the hunt. A little later one of the negroes climbed a tree to shake down a coon, fell and was instantly killed. The coon fell among the dogs and a terrible fight ensued. In attempting to separate the coon and dogs another negro had his leg literally torn to pieces by a dog. He killed the dog. The coon next succeeded in fete, and his death ends the list of casualties during that coon hunt. We are glad to learn that the murderer has been apprehended.

Not as to Better up of Club.

Persons sending a club of ten subscribers and \$10.00, will receive an extra copy gratis for one year. For a club of ten for six months and \$5.00, will also receive an extra copy free for six months. This is a rare opportunity, and every one wishing a cheap readable newspaper, should subscribe at once.

Having purchased a good outfit, we are prepared to do all kinds of job work at reasonable figures, such as water books, calendars, visiting cards, posters, all kinds of black and Baptist Minnie.

Briefs.

A colored Democrat was murdered near Raleigh, N. C., some nights ago by some unknown person or persons.

One man was killed and about twenty-five wounded, at the recent riot in Charleston.

A woman recently received thirty lashes for stealing in Virginia.

An excursion is being organized in Atlanta to go to Washington to witness the inauguration of President Tilden on the 5th of March. Complete arrangements have been made with first-class hotels for the accommodation of 300 excursionists.

Almost all the troops that have been stationed in South Carolina, left for Florida last week.

The most terrible epidemic which ever attacked any city in North America, was Philadelphia in 1792. The number of deaths from the first of August to the 6th of November amounted to 4,044.

Two-thirds of the willow-ware in this country is imported from Europe at a cost of \$5,000,000.

Waiters of the Lick house, San Francisco, injured by the explosion of the steam table in September, 1875, have brought damage suits against the Lick trustees and ask for \$70,000.

The electrifying telegrams from the Indian agents, to the effect that Sitting Bull was on the march to surrender, turned out, as we said they would be, humbugs. Sitting Bull has had since then two fights with the troops. He is not leading a very sedentary life himself, and does not seem inclined to let other troops or settlers occupy a sitting position very long.—*N. O. Times.*

Mr. David Polsfeld, of the Secretary of State's office, has in his possession a well preserved but very ancient Hebrew roll, known to be at least more than 1,000 years old. It contains the four books of Moses, written upon a soft brown silk about ninety feet long and two wide. The pages of the roll are seven by twenty-four inches, and contain forty lines. The characters are large and jet black, age having had no apparent wearing effect upon them.—*Boston Advertiser.*

The Philadelphia Times of a recent date says: Maggie Stewart, a little girl from Brooklyn, visited Independence hall last night, accompanied by some of her family, and while admiring the old ball and the many relics exhibited there, asked the janitor whether she might be allowed to recite the "Independence Bell," saying that it was her highest ambition to speak the Peace in Independence hall. Permission was granted, and the little girl astonished the many visitors by reciting the piece in fine style. Another poem was called for, and the child again delighted her auditors.

Mr. Will Strickland, son of Mr. J. Strickland of Sheltonville, who was in the celebrated row at Duluth, on the 9th inst., left Duluth sometime in the night after the difficulty, on the horse of Dr. Matthews, with the intention of going home, by way of Rogers' Ferry. About eleven o'clock he put in an appearance at Mr. Matthew Strickland's, said the horse had thrown him, left the saddle, and said he intended to cross the river if he had to swim it. He has not since been heard from.

The N. O. Pickaynee says: Whittemore, the infamous Radical carpet-bagger in South Carolina, who was expelled by Congress for official corruption, advised his negro constituents, just before the election, that if the ballot boxes were disturbed, they must slay the whites—man, woman and child—and leave a "gruesome spot." The conscriptions of Louisiana don't go quite so far as that, but they are nevertheless determined not to be cheated out of the results of their victory.

THE ADVERTISER

Largest Bona-fide Town and County Circulation of any paper published in the County.

J. R. THOMAS, Editor & Proprietor.
W. P. HOWELL, Editor & Proprietor.

DARLINGTON, GA.,
FRIDAY, Nov. 24, 1876.

The Atlanta Commonwealth pours a broadside into patent outlets. Sensible.

The old Congress meets on the first Monday in December and the new one on the fifth day of March.

It is a veritable fact that negro women dressed in men's clothes voted, unchallenged, Radical tickets in Florida.

Hundreds of Democratic negroes of Louisiana desired to vote but do not do so for fear of violence from Republicans of their own color.

Vermont is trying to "Solace" itself by running on the "Solace" ticket post master Solace of that State, who is ineligible from "holding office of trust and profit under the United States."

Mr. Samuel Robinson, a conductor on the Western and Atlantic Railroad, was killed on the 17th inst., while on a freight car, by being struck by the bridge near the Fair Ground, Atlanta. He was a prominent Good Templar of the city of Atlanta.

The *Savvy South* for this week presents on its 6th page, a good portrait of Hon. J. A. Williams, Governor elect of Indiana, who, from his persistent habit of wearing blue jeans, is known as "Blue Jeans" Williams. It is also accompanied by an interesting interview had with him by a New York *Herald* reporter.

Mr. J. H. E. Till is prominently spoken of in all the papers occasioned by the resignation of the Hon. J. L. Warren, representative elect from Chatham county in the Legislature. We know Mr. Till only by reputation, but have no hesitancy in saying that, in our opinion, he would make a faithful guardian of the people's rights, were he elected to this position.

Too much praise cannot be given that sterling, wide-awake and progressive daily, the Atlanta *Constitution*, for its Herculean efforts to keep its numerous readers posted as to the very latest election news, even at an additional expense, and the Democratic party owes no little to the fearless editors of that outspoken journal for the overwhelming success of their party in this State. Long may it wave.

This is what a strong Radical paper, the Norwich, N. Y. *Bulletin*, has to say in regard to the election: "We had rather see Tilden President than Hayes counted in by fraud and what is more, we believe Hayes would, too. If he be the man we taken him to be while giving him our support, he will not stoop to conquer. Rather than sanction any unworthy or dishonest proceeding, we believe he will refuse to qualify."

There are now confined in Fulton county jail sixty-nine persons charged with violating the internal revenue law. Just think of it! over half a hundred of Georgia's citizens lying in prison at the State Capitol, caused by a corrupt administration, dragged there by a set of men who are sworn followers, convicted by a set of ignorant, and in nine cases out of ten, colored, jurymen, and sentenced by a conscienceless judge. And yet some will persist in calling this a land of freedom. How long, oh, how long!

Do not let us again arouse the sleeping lion of revolt in our midst. Do not let the great North stir to arms by the violence of politicians of either section. Heaven knows we need no more war. But in the spirit of simple frankness, and in view of the plain facts we have rehearsed, and in the face of the still unforgetting tragedy of the rebellion, and in deep solicitude for the forgiven men of the South who made that rebellion, we invoke both sides to peace, to compromise, to mutual forbearance, and to the cultivation of that love of country which ought never to be extinguished. Philadelphia Press.

THE GOLD FEVER.

The increasing richness of the numerous valuable gold mines, now being so successfully worked in N. E. Georgia, particularly this section, is becoming the all absorbing theme with our people, and the outside capitalists, who are acquainted with and rightly appreciate our gold mines, are flocking to the mountains in quest of safe investments. It is an oft repeated question by many, who are not familiar with our mountainous region and its inhabitants, why don't the people of that neighborhood, who are living in a manner, right on top of rich gold belts, open out and work the mines themselves? To all such queries we would say that the pecuniary circumstances of the major portion of the people of N. E. Georgia will not admit of the outlay necessary to develop the mines, and lay bare the thousands of rich veins which lie buried in the bowels of the earth, and can only be reached by means of machinery. It is true that a good deal of surface mining is being carried on here by the poorer class of this section, but this is not what the country needs, and must wait to develop her gold mines and vast national fame, it is capital—something the people of this section do not possess to no very great extent. This is all that is necessary to make this one of the granitic and richest countries on the globe.

THE JUDGESHIP.

By reference to the acts of the Legislature of Georgia of 1851 and 2, page 219, it will be seen that the Blue Ridge Circuit was organized Nov. 24, 1851. Since that time to the present, the Judges of this Circuit have been taken from Cobb and Cherokee counties.

We learn that there are now pressing applications from those counties for the appointment again. We think the time has fully come when this distinguished honor should be conferred on some one in other localities.

We therefore earnestly request Gov. Colquitt in making a selection for a competent man for this position, to survey the mountain section of this Circuit, and if he cannot find some one whose honesty and ability would justify the selection, if so we think the appointment is due our section, as we claim to be true to the Democratic party, as the results of our elections will show ever since the existence of the Radical party.

A STARTLING FACT.

During the course of a conversation between the Hon. Jere Black and a Philadelphia *Times* reporter, the former distinguished gentleman advanced the startling idea that the issue of the present contest will result in the election of Tilden and Wheeler, in the following manner: He believes Louisiana and Florida gave a majority for Tilden, but the vote of each will be counted for Hayes, and as a result the votes of those States will be thrown out by Congress when it shall meet to count the electoral vote. This will throw the election of President into the House and Vice President into the Senate. The former would undoubtedly elect Tilden and the latter Wheeler.

FRESH OUTRAGES.

His satanic majesty—the devil—has, it would seem, been turned foot-loose and is now enjoying a portion of the thousand years allotted him upon the earth by the good book. The *News* and *Courier* chronicles another bloody outrage by the negro militia in Beaufort county. On the 16th a Democratic negro was attacked and brutally treated by them. He lodged complaint, a warrant was issued and two white constables arrested five of the offenders, and as they were returning the militia fired upon them, killing one instantly and fatally wounding the other. The prisoners were rescued, and the dead man's head cut open with an ax. Great excitement prevailed—the negroes gathered in large numbers with their arms, and the whites were preparing to meet them.

THE SITUATION.

It is somewhere written that "there shall be wars and rumors of wars," and we verily believe that a large number of our people are willing, yes, eager, to bring this prophecy to pass. For instance, an Indianapolis paper calls loudly for "a fair count or a free fight." Well, the first sentence will do very well—yes, first rate—but for the latter, we are inclined to think that we have had just about as much fighting as we can bear up under with honor to ourselves. Yet, we are sorry to see that this peaceful feeling does not prevail to a great extent among the bone and sinew of our land—the men who did the fighting in the late war upon both sides. We are opposed to bloodshed, when there is a possibility of an amicable adjustment of the matter, but we are frank to confess that it is enough to provoke a saint to stand by and witness the deep-laid schemes of Grant, Morton, Chandler & Co., being carried out, and with such seeming success. In case Grant attempts to snuff Hayes, in opposition to the will of the mass of the people, which he is manifestly trying to do now at the point of the bayonet, the war spirit will not confine itself alone to the South, but an indignant people will rise up from the four quarters of the earth and wipe from the face of the earth such usurpers of a free people's rights. Justice hath spoken, let Wisdom prevail.

THE SPEAKERSHIP AGAIN.

Meems, Editors: In your issue of the 17th inst., I find you are pleased to notice editorially the name of Hon. W. P. Page of this county, in connection with several other prominent individuals of the State for the position of Speaker of the House of Representatives in the approaching Legislature. As justly remarked by you, a selection made from the gentleman named, would in the opinion of the undersigned, give entire satisfaction to the citizens at large, and reflect much credit on that honorable body for their great wisdom in selecting this officer to preside over them. Yet, in accord with yourself, I am constrained to the belief, that by reason of the business experience, life ability and unsullied integrity, elements combined in the person of Col. Price, he is the man for this honorable, and certainly responsible position. Further, all things equal, when we come to consider of our heretofore much neglected section of country with a voting population of thirty thousand individuals, who have never had a State or Legislative officer, from their midst, justice would seem that the claims of Northeast Georgia should be well considered by that honorable body. Citizens.

STEALING A VOTE.

There is no sounding the depth of infamy into which the Radical leaders of South Carolina have sunk, and nothing too mean or wicked for them to do in order to elect their chosen men, the people's asserted will to the contrary notwithstanding. From a special dispatch dated at Columbia, we learn that a Republican commissioner, with the returns of Laurens county, eleven hundred Democratic majority, refused for five days to deliver them, and a short while thereafter disappeared, taking with him the returns, when a warrant was immediately taken out for him by the Democrats and arrested. Now talk of our expected fair count in that State will you! what frauds of such magnitude are daily being unearthed.

A BIT OF INFORMATION WANTED.

Cannot some of our learned contemporaries give us an inkling of what Grant means by gathering up all the stray negroes, collecting and sending them West to furnish fresh scalps for the wigwags of Sitting Bull's camp, and calling in all the white troops and concentrating them at Washington? We fancy we can discern a dark speck being slowly but surely wadded shoreward by the strong winds of March. Are we correct in our visions, or is it caused by the vague fact that Uncle Samuel will experience some serious obstacles in the shape of bayonets when he is inaugurated on the 5th of next March? Tilden or blood seems to be the motto of the people.

ELECTION NEWS.

In the absence of later or more definite news from the States of Florida, South Carolina and Louisiana, we publish the following dispatches taken from the Atlanta *Constitution* of the 20th inst: FLORIDA.

TALLAHASSEE, Nov. 20.—The Democratic votes, through their attorneys, went before Judge White, of the Circuit Court, and asked for the following:

1st.—An injunction restraining Gov. Stearns from canvassing the electoral votes to the exclusion of the board of canvassers, and for a mandamus ordering the canvassing board to at once begin the canvass of the vote. It is thought that the Judge, although a Republican, will grant both petitions.

Nothing stirring—everything waiting for the above decision referred to.

LATE.—There is reasonable facts for believing that Gov. Stearns, of this State, will assume that the State board has no power to canvass the electoral vote, but that that power resides in the Governor. This assumption will permit the Governor to decide all issues pertaining to the canvass and issue his certificates to whichever set of electors he decides are elected.

LOUISIANA.

NEW ORLEANS, Nov. 20.—There are three tables in a circle in the Senate chamber, one for the returning board, and one for each committee. The corridors are barricaded and guarded by assistant sergeants-at-arms.

SOUTH CAROLINA.

COLUMBIA, Nov. 20.—The Democrats have asked the Supreme Court for an order requiring the board of canvassers, in reporting their action under the order of the seventeenth, to include at the same time all errors, irregularities and discrepancies in the statements of the county canvassers, which exist between the returns of the managers as tabulated and discovered by the State board. This order was on the ground that a comparison of the returns of the managers and the county canvassers made for the counties of Aiken, Abbeville, Anderson, Darrell and Charleston by the State board of canvassers has made manifest great irregularities and false recitations, that votes given to one candidate, and appearing on the managers' returns, were, by the county canvassers, transferred to another candidate; that the county canvassers in their statement returns purporting to come from precincts not designated in any statutes and that the board of State canvassers received returns not forwarded according to law, and never submitted to the board of county canvassers.

The court declined to grant this order on the ground that the board had not as yet refused to produce the papers asked for, and that it would therefore be irregular to do so. The court, however, intimated that it would require the production of the returns by the board tomorrow and threatened to issue a peremptory mandamus to compel them to do so.

TERMS.—The Constitution of the 22nd says that the prospects are better and things look brighter in all the States. Before the week is out Tilden's election will be conceded by the Radicals.

DESTRUCTIVE FIRE IN GAINESVILLE.

From the Atlanta *Commonwealth* of the 18th inst., we have the details of a destructive fire which occurred in the city of Gainesville on the night of the 17th. The fire broke out in the store belonging to Mr. Gus Dorsey, who is one of the firm of Banks & Dorsey, in that city. From Mr. Dorsey's store the flames extended westward along the southwest side of the public square, destroying all the houses to Mr. E. L. Skinner's brick building, recently occupied by Whitcomb & Clements as a drug store. The sufferers are Joseph Praytor, Richard Castlesbury, Jr., Clements & Whetstone, merchants; J. N. Loden, jeweler; Samuel Lesser, barkeeper; Monroe Dobbs, harness maker; Henry Cohen, dealer in confectioneries, notions, etc. The loss is estimated at fifteen or twenty thousand dollars. The buildings destroyed were all wood. It is supposed to be the work of an incendiary.

GIVE IT UP.

It is high time that Gov. Hayes should give up, acknowledge the corn and give it up. Tilden's majority in Hayes' home—Cremont, Ohio—is 113. It has been clearly proven, at least to our mind, that Hayes was never cut out to rule over an intelligent and fair-minded people; it is a fact, and that poor, deluded, misguided tool of Grant, will doubtless realize that fact himself before he is inaugurated.

Thirty engineers struck on the Georgia Railroad the other day. The company has since employed non-union engineers, and the trains are now running on schedule time.

Jessie R. Kieridge was stabbed to death by Delos Jett, near Atlanta, a few days ago. Whiskey was the cause of the affair. Jett has been lodged in jail.

If it said that seven hundred negroes voted in Darien, Ga., at the election, who had not paid their taxes.

A negro woman died in Atlanta the other day, at the ripe old age of one hundred and fourteen years.

The Supreme Court of South Carolina is composed of two white men and a negro, all Radicals.

All the engineers of the Georgia Road have gone back to work at \$3.50 per day.

The Student's Herald.

A four page sixteen-column, wide-awake paper, published monthly at ONLY FIFTY CENTS a year. Devoted to Poetry, Romance, Sentiment, Wit and Humor. Specimen copy sent free on application. Address, THE STUDENT'S HERALD, Darlington, Ga.

AIR-LINE HOUSE,

49-1-2 P. yor Street, Atlanta, Georgia. Single Meal or Lodging, 50c. Transient, per day, 75c. 60 Special rates for a longer time. J. L. KEITH, Proprietor.

Address, F. H. SIDDALL, 105 Market St., Phila.

THE GEORGIA DAILY

COMMONWEALTH

[Published every evening (except Sun. & day) by the Commonwealth Publishing Co., Atlanta, Ga., and is edited by Col. Curry W. Styles, late of the Albany News, with efficient assistants. The Commonwealth gives the current news of the city, State and elsewhere, market reports, and vigorous editorials on Municipal, Political and General Subjects. The coming canvass—State and National, will be closely watched and properly presented while the Mechanical and Agricultural interests of the State will not be neglected. It has a large and rapidly increasing circulation.]

TERMS:

One month, 75 cents; Two months \$1.75; Four months \$2.00; One year, \$6.00. Printing, binding and mailing of every kind, done in the best style and at the lowest prices by the Commonwealth Publishing Company, Atlanta, Ga.

VISSCHER & HALL'S

Concentrated Potash.

Warranted equal to any Potash in the market, and far superior to Concentrated Lye for all purposes for which it is used.

Put up in one pound metal cans, convenient for use in families for making hard soap, and for cleaning purposes generally. Directions for making soap, etc., accompany each can.

For cleaning stoves, presses, machinery, paint, softening water, washing silks and fruit trees in the spring, it is unequalled for excellence and convenience of package. For sale by grocers and druggists everywhere.

Viesscher & Hall's Insecticide and Disinfectant Powder is invaluable for the destruction of the potato bug, cotton worm, grasshopper, mice, rats, roaches, insects, and vermin of all kinds. It is harmless to man and stock, and far cheaper than Paris green for the destruction of vermin. It is also invaluable as a disinfectant, purifying the air in hospitals and sick rooms, and destroying the foul odors of sinks, cellars, stables, etc. Put in one pound cans. For sale by druggists and grocers everywhere.

VISSCHER & HALL, Manufacturers, 96 Wall Street, New York.

Written by his father. A complete account of the most mysterious abduction and exciting search. With facsimile letters and "blue-prints" of all other books. One agent took 60 orders in one day. Terms liberal. Address, John E. Potter & Co., publishers, Philadelphia.

MASON & HAMLIN

CABINET ORGANS

Have been unanimously assigned the

"FIRST RANK"

IN THE

Several Requisites"

Of such instruments, at the

U. S. CENTENNIAL, 1876,

and are the only organs assigned this rank. Their superiority is thus declared, not in one or two respects only, but in all the important qualities of an organ. A Metal medal has also been awarded them, and medals of equal value were awarded all articles of merit. It is of recognition, so that many makers can advertise "first rank," or "highest awards."

Comparative rank in excellence, has been determined by the Judges' Reports alone, in which the MASON & HAMLIN ORGANS are unanimously assigned the "FIRST RANK" in the several requisites of such instruments, and are the only ones assigned this rank. See Judges' Reports. This result was not unexpected, for these organs have uniformly taken highest awards in such competitions in hundreds of companies. They were awarded first medals, and highest honors at Paris 1867, Vienna 1873, Santiago 1875, Philadelphia 1876, having thus been awarded highest honors at every World's Exhibition at which they have competed and being the only American organs which ever obtained any award in Europe.

NEW STYLE. The improvements exhibited at the CENTENNIAL, elegant new cases in great variety. Prices very lowest. Sent by mail. Material and workmanship. Organs sold for cash or installment, or rented until rent pays. Every organ warranted to give the truest and most agreeable sound, and to be a reasonable purchaser or the money returned. Illustrated catalogue sent free.

MASON & HAMLIN, ORGANS CO., 114 Tremont Street, Boston; 25 Union Square, New York; 89 and 92 Adams St., Chicago.

Nov 17—61

Local News.

Rat proof corn cribs seem to be all the go.

The "crop" of candidates is quite flattering in this county.

Christmas will be here on or about the 25th day of December.

We noticed the presence in our town last week of the nurseryman.

Warranty deeds, tax executions, marriage license, etc., for sale at this office.

Is it not about time that Christmas sociables were becoming fashionable?

"Bah," for the least to Tilden and Hampton by the Y. M. C. Association.

Dahlonega can boast of one of the most systematic post offices in the up country.

The mortality among the aged people of this section has greatly increased the past three months.

A large drove of beavers and sheep passed through town on Monday last, en route, we suppose, for the Atlanta market.

It is with deep regret that we note the suspension of the *Atlanta Commonwealth*, as it was one among our best exchanges.

Mr. Leary killed a pheasant on last Tuesday, measuring nineteen inches and a half from the tip of the bill to the tip of the tail.

It seems that our informant last week in regard to Wimp's mill, was slightly mistaken. It will only take a few days to repair the dam, and the machinery will not be stopped more than three days at the farthest.

It will be seen by a notice elsewhere that the time of collecting tax in this county has been prolonged to the 11th and 12th of December, after which the Tax Collector will close his books.

Elsewhere we publish the prospectus of *The Student's Herald*, published monthly at this place, and ably edited by our young friend, Mr. John A. Howard. We commend it to the public.

On Sabbath evening last, a few flakes of snow fell, which made the children clap their hands in admiration and delight, and caused the older ones to cast a hasty glance at the wood pile.

The soot in Mr. Lewis Meaders' chimney catching fire and the blaze extending some ten or twelve feet above the top of the chimney, caused a considerable stir among our citizens on Saturday night last.

We publish elsewhere the advertisement of a valuable lot of land lying near Auraria, belonging to Mrs. A. P. Hill, of Atlanta. Read it, as there is undoubtedly a rare opportunity offered to persons wishing to lease or buy.

The matrimonial fever is raging at a terrible extent near Blairsville. Four couples entered into the joys of married life one night recently, which makes about the twelfth marriage within the past three weeks.

We have just been handed a copy of the *Burling (Vt.) Free Press*, one of the leading Radical organs of that State. But strange to say it has not a word to offer in vindication of Vermont's ambitious postmaster.

In our notice of the grand demonstration in honor of Gov. Tilden, President elect, we got the cart before the horse. We stated that Col. Wier Boyd delivered the opening address; we were mistaken, he was the last speaker who appeared.

Our citizens are beginning to realize that *The Annals* is the best paper published in this section, as its growing popularity is shown by its large and increasing subscription list. Twelve more subscribers were added to our mail book last Saturday.

We publish in this issue a sensible article from the pen of "Citizen," the sentiments of which we heartily endorse. No better selection could be made among the numerous aspirants for the office of Speaker of the House of Representatives, than Lumpkin's distinguished representative.

Dahlonega should have a spelling bee by all means.

Mr. C. W. Ash is convalescing from a late severe attack of typhoid fever.

Quarterly meeting commences at the M. E. Church, in this place, next Tuesday.

Sitton & Bro's corner will soon undergo some repairs. Lumber is now being delivered for that purpose.

Our town Councilmen are trying to rent the calaboose to some enterprising poultry raiser for a chicken coop. Laudable ideal!

There is too much boisterous conduct carried on in our midst for a town that is incorporated. The report of firearms are heard in the incorporated limits at night and even during the day, and the guilty parties have not been brought to a realization of the fact that they are violating the town ordinance.

Our market reports were unavoidably crowded out of our last issue, we were unable to make the necessary corrections, and did not wish to mislead the trading public by printing them in an uncorrected state. The proper changes have been carefully made, and the figures can be relied upon.

Meas. Editors: Will you please to do me the favor to say through your columns that I respectfully decline to allow my name to be used in the approaching election for Independent or Councilman? Thanking "Citizen" for the proffered honor, I am very respectfully,
Nov. 20th. A. J. REESE.

We had a pleasant call paid us on Wednesday morning last by Mr. P. F. Lawshe, the gentlemanly proprietor of that fearless and progressive weekly, the *Gainesville Southern*. Mr. Lawshe is of Northern birth, but is identified with the interests of our country, and exhibits an enterprising and public spirit. We commend him to our mountain friends.

It is simply astonishing to think of the large trade that is carried on in Dahlonega. Produce even as far back as Blairsville, Union county, is brought to this market, where it finds ready sale. The large influx of students and miners into our midst, has greatly increased the demand for country produce. The consumption is considerably greater than it was six months ago.

Real estate is looking up in Dahlonega, and vacant houses are becoming scarce. As an evidence of the increasing prosperity of our town, we notice that Mr. John A. Parker has purchased the entire block owned by Mr. Whitmore. This is a valuable property, as it has on it a store house, two dwelling houses and a blacksmith shop together with outbuildings.

We gather the following particulars of the sad death of Mr. John Legg, which we spoke of in our last issue, as having killed himself at or near Morgantown, from the *Ellijay Courier*. It says: "Mr. Legg, a young man about 23 years of age, had started to the woods on a hunt, expecting to join a party of hunters, and having met two men he sat down on a log, leaning his gun against his breast; while in conversation with the parties whom he had met, he struck one of the hammers with his foot which fired the entire load of thirty shot into his breast. He lived only a few hours after he received the wound."

W. S. Logan in the *Michigan Farmer*, has this to say in regard to the hog cholera or black teeth, which we hope will be of value to our farmers. He says: "Last fall I purchased five pigs about six weeks old; they did very well at first, but after a time began to run down and get the scales on the back, and one died, with all the appearance of hog cholera (as I understood it). I thought them all gone; had done all I knew how to, and gave them up. One day I called my hired man to come and see them, and he said they had the black teeth; he caught one and showed me eight as sharp as needles and protruding from the jaw about one-half inch, four on each jaw, two above and two below on each side, between the grinders and the nippers, black at the roots, while the

pig's tongue was literally chopped to pieces. Took pinchers and soon had drawn or broken off eight teeth to every pig. They immediately began to improve, and in a few weeks were thrifty and doing tip-top, with nothing but good feed after getting rid of the teeth."

MINING NEWS.

HAND MINE.

At this mine the ore is steadily improving. A new vein has just been struck which is of a much better quality than any they have had in their present cut, and bids fair to furnish a sufficient quantity to run the mill for a long time to come.

They are still prospecting at the DENNING MINE, and making new openings. The ore, of which they have large masses now in sight, looks to be of the best quality, but still they are not satisfied, as they are cutting the large vein in another place. All the work is done in a workman-like manner, and goes to show that there is one enough to run several mills instead of one, as they now have.

DAGGS BRANCH.

The mill at this mine is not run longer than five hours each day, owing to the scarcity of water. They are prospecting with good results and discovering new mines.

THE JONES VEIN.

We learn that Capt. E. L. Crow has returned to this place with a view of opening out his rich gold mine, which he purchased some months ago, and is known as the Jones vein. He is accompanied by Mr. F. Waiters, who has much experience in the gold mining business, and comes here for the purpose of examining the ores of the different mines of this section. Capt. Crow will no doubt make a grand success of his undertaking, as this mine, with the limited developments already made upon it, has proven to be one of the richest mines in North-east Georgia.

LOAD'S BOAT.

We made mention several weeks ago of the sinking of Load's boat on the Chestate river, together with the engine and all the other machinery on it at the time. We are now informed by Mr. Load, himself, that he has succeeded in raising the machinery, but will be compelled to abandon the boat. As we said before, this was quite a serious loss to the owner, and it will be some time before he can get everything in working order again.

The official vote of Ohio was 658,649, of which Hayes received 330,698; Tilden 323,182; Peter Cooper, 3,057; Green Clay Smith, 1,636, and James B. Walker, (anti Masonic candidate), 76. Hayes' plurality over Tilden is 7,516.

It is reported from Calcutta that 20,000 persons perished in the cyclone recently, and some estimates place the loss of lives as high as 40,000. In a town of Burrishtol the capital of Backergunge district 3,000 houses were leveled with earth.

Some misunderstanding occurred between Mr. Springfield and Dr. McIlwain, at Tunnel Hill, Ga., on the 11th inst., in which the former pulled out his pistol and shot the latter through the head, killing him almost instantly. Springfield fled.

Something over forty gin houses have been burned in Georgia this season.

Deaths.

FIELDS.—Mr. B. W. Fields, in this county, on the 18th inst.

Marriages.

RIDER—TURNER.—Mr. Reese Rider to Miss Ad. Turner, by in this county, on the 12th inst.

LONDON—MARTIN.—Mr. Jas. L. London to Miss Fannie Martin by in this county, one day last week.

August Flower.

The most miserable beings in the world are those suffering from Dyspepsia and Liver complaints. More than seventy-five per cent of the people in the United States are afflicted with these two diseases, and their effects, such as stomach, chest headache, habitual constipation, palpitation of the heart, heart-burn, water-brash, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue and disagreeable taste in the mouth, coming up of food after eating, loss of spirits, &c. Go to your Druggist, and get W. & W. A. Burnside's August Flower for 10 cents. Try it—two doses will relieve you.

Municipal Election:

Taxes, Salaries and All Other Expenses Reduced!

Editors Advertiser: The following ticket you will please announce and oblige me by printing. This body has been tried and found not wanting:

ANNOUNCEMENTS.

FOR CLERK SUPERIOR COURT.

We are authorized to announce the name of Mr. J. P. PARKER, the present Clerk of the Superior Court, as a candidate for re-election at the ensuing election in January next.

At the earnest solicitation of many voters, W. J. WOODLEY, former Clerk, announces himself as a candidate for the office of Clerk Superior Court of Lumpkin county at the ensuing election in January.

FOR TAX COLLECTOR & RECEIVER.

WE are authorized to announce the name of BEN. F. SATTERFIELD as a candidate for Tax Receiver and Collector of Lumpkin County at the approaching election in January next.

WE are authorized to announce the name of J. K. BEARDEN as a candidate for Tax Receiver and Collector, of Lumpkin county, at the approaching election in January next.

FOR SHERIFF.

WE are authorized to announce the name of A. W. WOODY, as a candidate for the office of Sheriff of Lumpkin county, at the approaching election in January next.

We are authorized to announce the name of W. H. SATTERFIELD as a candidate for re-election to the office of Sheriff at the ensuing election in January.

WE are authorized to announce the name of JOHN CASTLEBERRY, of Auraria, as a candidate for Sheriff at the ensuing election in January next.

WE are authorized to announce the name of JOHN C. EARLY, as a candidate for the office of Sheriff of Lumpkin county, at the approaching election in January next.

FOR JUSTICE OF THE PEACE.

WE are authorized to announce the name of CHARLES LEARY as a candidate for the office of Justice of the Peace of the 8th District G. M., at the ensuing election in January.

WHY WILL YOU PINE AWAY?

WITHOUT A PARALLEL.—The demand for Dr. J. Bradford's Female Regulator is beyond precedent in the annals of popular remedies. Orders come in so thick and fast that the Proprietor has, heretofore, been unable to fill them all. He is happy to state that arrangements are now complete by which he is prepared to manufacture and supply a scale equal to the emergency, and the public may feel assured that their wants may now be supplied. Physicians of high repute are using this great remedy in daily practice, all over Georgia. Hereafter no woman need suffer from suppressed, irregular or irregular menstruation. This valuable medicine is prepared by L. H. Bradford, Drug Store, Atlanta, Ga., and sold at \$1.50 per bottle by respectable druggists throughout America.

Early, Blooming Widow.

MARIETTA, Ga., March 8, 1870.
Messrs. Bradford & Co., Gentlemen:—You will please ship us another supply of your invaluable Female Regulator and forward bill by mail. We are happy to state that this remedy gives better satisfaction than any other article we sell. We have been selling it since 1858, and witnessed many remarkable cures by it. Among others, there was a lady friend of ours who was a widow and sixty until she was twenty-six years old, who was married to her husband lived two years and died. She continued in bad health in fact, she has never been what a woman ought to be. A few months after the death of her husband, she saw your advertisement, and came to our store and bought a bottle of your Regulator from us, and took it according to directions. This cured her and well, brought her regular monthly periods and to-day she is a hearty, blooming widow with the use of but two bottles of your Regulator, costing her only \$3.00, when she had tried several physicians and spent a great deal of money without any benefit. We are very respectfully yours,
W. ROOT & SONS.

NOTICE.

Agreeable to an act of the Legislature incorporating the town of Dahlonega, there will be an election held on the first Saturday in December next, at the Court House, in the town of Dahlonega, for the election of an Independent and four Councilmen.

A. J. REESE, Independent Proten.

P. M. SUTTON, Clerk of Council

QUICK RELIEF FROM PAIN. **DR. GROSVENOR'S** **CAPSICIN** **Plaster.**

The quickest, safest, cheapest and most convenient cure of pain ever discovered.

No more greasy, filthy, evil smelling compounds—no more poisons, no more pain. Grosvenor's Capsicin Plaster cures a lame back, neck or side in half an hour. Grosvenor's Capsicin Plaster cures rheumatic pains in a single night. Grosvenor's Capsicin Plaster Plaster combines all the advantages of the best porous plaster ever made, with the wonderful qualities of capsicin. It is the great natural remedy for all kinds of local and seated pain. The cheapest medicine in the world! A single plaster does this work. Grosvenor's Capsicin Plaster is the only genuine. Take no other kind with a partly similar name. This article cures, others may not. Remember the name—Grosvenor's. Sold by druggists at 25 cents, or sent by mail, postpaid, to any address, on receipt of price.

PREPARED ONLY BY
J. M. GROSVENOR, M. D.
 25 Fack N. Y.

VISSCHER & HALL'S **Concentrated Potash**

Warranted equal to any Potash in the market, and far superior to Concentrated Lye for all purposes for which it is used.

Put up in one pound tins, convenient for use in families for making hard and soft soap, and for cleaning purposes generally. Directions for making soap, etc., accompany each can.

For cleaning eggs, process machinery, paint, softening water, washing windows and fruit trees in the spring. It is unequalled for excellence and convenience of use. Put up by grocers and druggists everywhere.

Viesscher & Hall's Insecticide and Disinfectant Powder is invaluable for the destruction of the potato bug, cotton worm, grasshoppers, mice, rats, roaches, insects, and vermin of all kinds. It is invaluable to men and animals and far cheaper than Paris green for the destruction of vermin. It is also invaluable as a disinfectant, purifying the air in hospitals and sick rooms, and destroying the foul odors of stables, cellars, stables, etc. Put up in one pound cans. For sale by druggists and grocers everywhere.

VISSCHER & HALL, Manufacturers,
 96 Wall Street, New York.

THE VERY BEST? **THE ELIJAH COURIER.**

(With a fine oil chromo premium) will be sent to any address one year for \$1.25, or \$1.00 without premium, and postage prepaid by the publisher. The COURIER is a large eight-page weekly, devoted to local, household and generally interesting reading. Its local column is rich, rare and replete with fancy, fun and frolic. A really fine oil chromo is given free to every subscriber. It gives more for the money than any paper published in the South. As an advertising medium, the Courier is second to none.

AGENTS WANTED. I want an active, energetic agent in every locality, who can easily make from \$1 to \$7 per day. Write for specimen and terms to agents. Address:

WARRANTED FIVE YEARS!

It requires no instructions to run it. It will do every class and kind of work. It can not get out of order. It will sew from Tissue Paper to Harness Leather. It is far in advance of other Sewing Machines in the magnitude of its superior improvements, as a Steam Car excels in achievements the old fashioned Stage Coach.

Prices Made to Suit the Times, either for Cash or Credit.

Send for Illustrated Catalogue of STYLES and Prices.

PERFECTION LOOK OUT FOR **ATTAINED AT LAST!** A TRIAL WILL INSURE ITS POPULARITY EVERYWHERE.

WHITE SEWING MACHINE.

When once used will retain its place forever.

WE EXCHANGE MACHINES.

Send your old-fashioned, cumbersome, heavy-running, woman-killing machine to us, and we will allow you \$10 for it, as part payment for one of ours.

IT IS CELEBRATED FOR ITS ADVANTAGES. IN THAT IT IS ONE OF THE LARGEST SEWING MACHINES MANUFACTURED—ADAPTED ALONE TO THE USE OF THE FAMILY OR THE WORK-SHOP. IT HAS THE LARGEST SHUTTLE WITH A BOBBIN THAT HOLDS ALMOST A SPOOL OF THREAD.

THE SHUTTLE TENSION IS ADJUSTABLE WITHOUT REMOVING THE SHUTTLE FROM THE MACHINE.

THIS MACHINE IS SO CONSTRUCTED THAT THE POWER IS APPLIED DIRECTLY OVER THE NEEDLE. THIS ENABLES IT TO SEW THE HEAVIEST MATERIAL WITH UN-EQUALLED EASE. IT IS VERY SIMPLE IN ITS CONSTRUCTION, DURABLE AS IRON AND STEEL CAN MAKE. ALL ITS WEARING PARTS CASE-HARDENED OR STEEL, AND INDENSOBLY PROVIDED WITH MEANS FOR TAKING UP LOST MOTION, SO WE ARE JUSTIFIED IN

Warranting Every Machine for 3 Years.

IT IS THE LIGHTEST AND EASIEST-RUNNING MACHINE IN THE MARKET. IT IS ALSO THE MOST ELABORATELY ORNAMENTED, AND PRETTIEST MACHINE EVER PRODUCED. WITH ALL THESE ADVANTAGES, IT IS SOLD FOR LESS THAN OTHER FIRST-CLASS MACHINES.

FOR CIRCULARS AND TERMS TO AGENTS, EXTRAORDINARY INDUCEMENTS OFFERED FOR CASH OR ON CREDIT.

GEO. J. HOWARD,
 WHOLESALE AND RETAIL
DRUGGIST,

AND DEALER IN
 PAINTS, OILS,
 WINDOW GLASS,
 FINE WINES AND LIQ,
 QUORNS, FOR MEDICAL USE, etc.

Also Proprietors of the following popular remedies:

PONCE DE LEON BITTERS.

A pleasant remedy for indigestion and other diseases arising from a disordered condition of the stomach, and of decided advantage to persons recovering from any debilitating sickness.

ESSENCE OF JAMAICA GINGER.

A pure and concentrated essence of Jamaica Ginger, and for sick headache, colic, nervous debility, cholera morbus, &c., is an invaluable remedy.

EUREKA NERVE AND BONE LINIMENT.

A sovereign remedy for bruises, sprains, cramps, stings of insects, stiffness of the joints, neuralgia, etc. While I do not claim that it will cure old chronic cases of rheumatism, I do say that it will give decided relief, and I have information of perfect cures, having been made by the use of it.

HOWARD'S WORM CONFECTIONS.

A pleasant, safe and effectual remedy for worms—the confounders and having any unpleasant taste. Children are fond of them.

HOWARD'S IMPROVED CON-DITION POWDERS.

For horses catch and hogs. Horses low in flesh, hide bound, and in bad health generally, will be largely benefited by the use of these powders. Given to hogs occasionally they will keep in good health and not be liable to cholera.

HOWARD'S CHICKEN POWDERS.

A certain prevention (and cure if used in time) of gapes, cholera and other diseases of chickens, turkeys, &c.

G. J. Howard,
 WHOLESALE AND RETAIL DRUGGIST,
 47 PEACHTREE ST.

THE LIGHT-RUNNING **"Old Reliable"**

HOWE SEWING MACHINE!

POINTS OF SUPERIORITY:

Simplicity and Perfection of Mechanism. Durability—will last a life time.
 Range of Work—Without Parallel. Perfection of Stitch and Tension.
 Ease of Operation and Management. Self-adjusting Take-up.
 Adjustable Head, &c., &c., &c., &c.

IN RANGE OF WORK THIS MACHINE CANNOT BE EQUALLED. WILL WORK equally well on thick or thin goods, from gauze to heaviest heavy coating, or even leather, without change of needle, tension or thread. We will warrant them to do this! Our fine work is equal to any, and our heavy work equals that of any other machine in the world. The Machine makes

THE CELEBRATED LOCK-STITCH,

(the stitch invented by Mr. Howe, alike on both sides. The tensions are positive for both upper and lower thread. The shuttle tension is upon the thread as it leaves the shuttle, and not upon the bobbin as in most machines, and this tension is invariable, whether the bobbin be full or nearly empty. It is obtained by turning a screw in the shuttle, and can be changed in a moment, without taking out the work, breaking the thread or thrashing through holes. What we claim, in substance is, that this is an

HONEST MACHINE,

And if put in your family will do any and all of your work perfectly, without a life time, is a willing and ready servant, and is not subject to FITS. Persons who have tried all machines are unanimous in declaring this to be the easiest learned of any in the market. In the majority of cases our customers learn from the instruction book without further aid.

EVERY MACHINE WARRANTED!

If you are thinking of buying, and are prejudiced in favor of any particular machine, at least examine the "HOWE" before you purchase.
